I. Introduction

A. Background

From derivation to differentiation, advances in stem cell research are progressing at an unprecedented rate. Discoveries in the allied fields of molecular and cellular biology, developmental biology, neuroscience, and tissue engineering are furthering the progress of stem cell investigations and accelerating the field's movement toward potential clinical applications. To ensure a future population of biomedical researchers and technical staff with the knowledge and desire to move the field forward, New York State must stimulate and support interest in stem cell-related biology at the undergraduate level.

In April 2007, legislation was enacted creating the Empire State Stem Cell Board (ESSCB) and authorizing the investment of \$600 million in State funding over the next 11 years. The Empire State Stem Cell Board is authorized to provide grants for basic, applied, translational and other research designed to advance scientific discoveries in fields related to stem cell biology. All grants are financed by the Empire State Stem Cell Trust Fund.

New York State Stem Cell Science (NYSTEM) is a program of the New York State Department of Health, whose purpose is to administer stem cell research funding based on recommendations and advice from the Empire State Stem Cell Board. Information about the ESSCB and NYSTEM can be found at: <http://stemcell.ny.gov>.

B. Purpose of the Funds

This Request for Applications (RFA) will provide funds: to create opportunities for undergraduates to conduct research in the rapidly advancing field of stem cell biology; to deepen their understanding of the field and learn specialized techniques under the guidance of an experienced stem cell investigator; and to foster their appreciation of the broader context in which stem cell research occurs, including related cultural, historical, clinical and ethical issues.

Applicant institutions are expected to provide undergraduate students with a summer research experience that will stimulate them to consider career opportunities in stem cell-related research, and to maintain the capacity of New York State's biomedical research community to contribute in a meaningful way to the discovery and application of stem cell science.

C. Available Funds

Institutions may file only one application in response to this RFA. Approximately \$2.7 million is available to support approximately 10 awards. The number of awards made will be contingent upon the quality of applications submitted. Awards will be made in amounts up to \$75,000 per year in direct costs, plus Facilities and Administrative costs of up to eight percent of the modified total direct costs for a period up to three years.

Each application should provide summer internships for five to ten undergraduate students.

II. Who May Apply?

The applicant must be a New York State not-for-profit post-secondary educational institution or not-for-profit organization with strong ties to one or more post-secondary educational institutions. Organizations awarded funds must have the ability to monitor funds, maintain individual accounts and fulfill other fiscal management criteria. Two or more institutions, at least one of which is located in New York State, may apply as a consortium to maximize institutional resources committed to the program. If a consortium includes institutions from outside New York State, a New York State institution must serve as the lead applicant and accept primary responsibility for the application and subsequent contractual agreements. However, an institution may participate in only one application.

The principal investigator (PI) for the proposal must be employed by the applicant institution and have the skills, knowledge, and resources necessary to carry out the proposed Work Plan. An individual may act as a PI on only one application in response to this RFA, and only one application will be accepted from any one institution (see Section IV.C., Letter of Intent).

The summer internship positions are intended to be filled by students enrolled in a post-secondary educational institution. Each intern must be assigned to a scientist currently engaged in peer-reviewed stem cell research or peer-reviewed research in a field related to stem cell research. The scientist will be responsible for directly supervising the intern and ensuring a high-quality internship experience.

III. Project Narrative/Work Plan Outcomes

A. General Expectations

Applicant's institutions funded under this RFA will provide five to ten undergraduate students with a paid ten-week summer internship focused on the intern's independent role in, and presentation of the results from, a stem cell biology-related research project. Components of the program should include:

- immersion in the intellectual research environment, such as seminars, journal clubs and laboratory meetings;
- weekly meetings with the assigned mentor to assess the development and progress of the research project;
- special seminars, workshops or field trips that broaden students' perspectives beyond the laboratory to consider ethical, clinical, cultural and historical issues related to stem cell science, including at least one mandatory ethics seminar and at least one career opportunities seminar;
- workshop(s) designed to enhance students' communication skills (written and oral) for presenting research results to both scientific and general audiences;
- a formal presentation, either by poster or orally, of the research project results;
- strong encouragement (and a budgeted additional stipend) for students to: submit an abstract and travel to an undergraduate research conference; return to their mentor's laboratory during intersession to continue their research; or develop a presentation to a high school audience an introduction to stem cell science and the results of their summer study;

- a recruitment process that demonstrates previously successful efforts to recruit women and underrepresented minorities, as well as students from colleges or universities where opportunities to participate in cutting-edge research are lacking; and
- a mechanism for tracking the interns' activities five years post-internship as a means to evaluate the program.

The application Work Plan should be developed to demonstrate the ability of the institution and PI to provide support for the intern to perform the activities outlined above within the specific time frames of the contract. Such support could include integration of the summer internship program with existing summer internship programs at the institution.

B. Use of Funds

Funds may be used, as appropriate to the funding mechanism, to support: intern stipends and housing expenses; compensation for the PI directing the program; and modest expenses related to supplies, equipment, travel, seminars, animals and their care, core facility use charges, and publication and communication costs. Facilities and Administrative costs are allowed, but are limited to a maximum of eight percent of modified total direct costs in any year (see Section V.A., Application Content and Formatting).

By law, funds must not be used for any activities related to human reproductive cloning.

C. Reporting Obligations

The contractor will be required to submit financial reports and progress reports in accordance with the forms and formats provided by NYSTEM. Submission of detailed quarterly financial reports will be required. Additionally, the contractor will be required to submit written semi-annual reports that substantiate progress corresponding to the tasks and milestones outlined in the Work Plan and Timeline. Such reports shall document progress towards: establishing the internships; the described activities for interns; efforts to publicize the internship broadly, including at academic institutions with underrepresented minorities; and intern participation and progress. All progress reports will require approval by NYSTEM staff prior to payment of the corresponding quarterly vouchers. The contractor will also be required to follow all reporting obligations outlined in Appendix A-2 and Appendix C of the executed contract. A sample of these contract appendices can be found in Attachment 5 of this RFA.

Contractors will be required to participate in and cooperate with evaluation activities sponsored or conducted by NYSTEM. These will include:

- Follow-up with interns post-internship;
- on-site monitoring site visits; and
- travel to and participation in at least one NYSTEM-sponsored meeting or symposium during the contract period.

The contractor must submit separate requests for budget modifications (including all equipment purchases), personnel changes, and requests for carry-forward of funds that were not detailed in the application and its appendix.

IV. Administrative Requirements

A. Issuing Agency

This RFA is issued by the New York State Department of Health. The Department is responsible for the requirements specified herein and for the evaluation of all applications.

B. Question and Answer Phase

All substantive questions must be submitted in writing to the NYSTEM program via e-mail at: nystemgrants@wadsworth.org, or fax at (518) 486-2191. To the degree possible, each inquiry should cite the RFA section and paragraph to which it refers. Substantive questions will be accepted through the date listed on the cover of this RFA.

Questions of a technical nature can be addressed in writing or via telephone by calling Bonnie Jo Brautigam, Director, Extramural Grants Administration, Wadsworth Center, at (518) 474-7002. Questions are of a technical nature if they are limited to how to prepare the application (e.g., formatting) rather than relating to the substance of the application.

Prospective applicants should note that all clarifications and exceptions, including those relating to the terms and conditions of the contract, are to be raised prior to the submission of an application.

This RFA has been posted on the Department of Health's public website at: <http://www.nyhealth.gov/funding/>. Questions and answers, as well as any updates and/or modifications, will also be posted on the Department of Health's website. All such updates will be posted by the date identified on the cover sheet of this RFA.

C. Letter of Intent

The prospective applicant institution is **required** to submit a Letter of Intent using the form provided in this RFA (Attachment 4). Letters of Intent will be used for the purpose of assembling the highest quality review panel in a timely manner. Letters of Intent confer no obligation upon the institution to submit an application in response to this RFA. **However, applications that are not preceded by a Letter of Intent WILL NOT be reviewed.** The Letter of Intent must be mailed to the address listed below in Section IV. E. and must be received by the date and time indicated on the cover sheet to this RFA.

Letters of Intent must be signed by the PI and applicant institution official. Letters of Intent that do not contain both signatures will be disqualified. Following receipt and acceptance of the Letter of Intent, the applicant institution and PI will receive an e-mail notification from NYSTEM staff with the application number to be used when filing the application.

For this RFA, only one Letter of Intent will be accepted per applicant institution. If an applicant institution submits more than one Letter of Intent, NYSTEM staff will accept the Letter of Intent that was received first. If it cannot be determined which Letter of Intent was received first, NYSTEM staff will request through written correspondence to the applicant institution a determination of which Letter of Intent should be accepted.

If the designated PI named on the Letter of Intent is changed before the application's submission, the applicant institution shall notify NYSTEM staff of this change prior to or at the time of application submission. An application number is specific to the institution it is assigned to; it cannot be transferred to another institution.

D. Applicant Conference

This conference will be held in Albany, NY on the date and time posted on the cover sheet of this RFA. The Department requests that potential applicants register for this conference by calling 518-474-7002 to insure that adequate accommodations be made for the number of prospective attendees. The deadline for reservations is posted on the cover page of this RFA. Failure to attend the Applicant Conference will not preclude the submission of an application.

E. How to File an Application

Applications **must be received** by mail at the following address by the date and time posted on the cover sheet of this RFA. Late applications will not be accepted*. It is the applicant's responsibility to see that applications are delivered to Room D350 prior to the date and time specified. ALL APPLICATIONS SHOULD USE THE FORMS (see Attachment 1 – Forms 1-10) AND FORMATS PRESCRIBED IN THIS SECTION V.A. APPLICATIONS THAT DEVIATE FROM THESE INSTRUCTIONS OR THOSE FOUND ON THE FORMS WILL BE PENALIZED FIVE POINTS.

Applicants must submit an electronic copy of the application, along with a paper copy. Applications sent in other formats or by facsimile or e-mail will NOT be accepted.

Electronic files must be submitted on a CD-ROM. The CD-ROM should be clearly labeled with the applicant's name and application number. The CD-ROM should contain:

- **Contractor Forms 1 – 3 in a single Microsoft Word (.doc) file;**
- **Contractor Forms 1 – 3 in a single Portable Document Format (.pdf) file;**
- **Forms 4 – 10 and all appendix material in a single .pdf file of not greater than 12MB; and**
- **Signed Forms 1 (Face Pages for the Contractor and all Subcontractors) in a single Portable Document Format (.pdf) file.**

It is the applicant's responsibility to ensure that all materials to be included in the application have been properly prepared. Applicants are strongly encouraged to seek appropriate technical support in the creation of electronic files and to review the electronic files prior to submission. Some materials may require scanning and insertion into the file. Discretion should be exercised in the resolution of figures and scanned materials. Excess resolution will increase the size of the file without any appreciable increase in viewing quality. Tips for managing graphics and file sizes are available at http://stemcell.ny.gov/research_support.html. Applicants should also be aware that while color figures may be included, applications may be printed in black and white. Applicants may wish to annotate the figure legend directing the reader to the electronic file if color is an important aspect of the figure. Under no circumstances should electronic files contain any password protection whatsoever.

The single paper copy of the entire contents of the CD-ROM should be included in the submission, and should include a Face Page (s) with original signatures. The paper copy will be used if the CD-ROM is damaged.

Forms are pre-set with acceptable fonts and margins. Applications should be single-spaced and typed using an 11-12 point font. Smaller font sizes are acceptable for use in tables and figure legends. Where additional continuation pages are needed, margins should equal one inch. The header should contain the principal investigator's last name, first initial and applicant institution name, and should be placed at the top right-hand corner of each page. Each page should be numbered consecutively. **Do not exceed ten pages for the Work Plan.** Figures and illustrations referenced in the Work Plan are included in the page limits. All material submitted becomes the property of the Department and may be returned at the Department's discretion. Submitted applications may be reviewed and evaluated by any person, other than one associated with a competing applicant, designated by the Department. Any information supplied by an applicant, which is believed to be exempt from disclosure under FOIL, will be clearly marked and identified as such upon submission by the applicant. Marking the information as “confidential” or “proprietary” on its face or in the document header or footer shall not be sufficient without specific explanation of the basis for the claim of exemption from disclosure. Acceptance of the claimed materials by the Department does not constitute a determination on the exemption request. A determination of whether such information is exempt from FOIL will be made at the time of any request for disclosure under FOIL in accordance with statutory procedure.

Budget – Form 5

Report the amount requested for each category, subtotal and total for each year or portion thereof. For any sub-contractual costs, provide additional copies of the form for each subcontract.

Allowable Expenses

1. Personal Service

Support may be requested for investigator(s) and technical staff, as well as for pre- and postdoctoral fellows, and students.

Salary and stipends should be consistent with institutional policies and proportionate to their percent of expended effort. Fringe benefits may be requested in accordance with institutional guidelines for each position, provided such benefits are applied consistently by the applicant organization as a direct cost to all sponsors.

2. Other Than Personal Service

Support may be requested for:

- Supplies
- Equipment
- Travel
- Consultant costs
- Other Expenses (see below)
- Subcontracts

Support for the following should be listed under "Other Expenses" in the proposed budget:

- Human Subjects
- Animals and Their Care
- Core Facility Usage Fees
- Communication
- Meeting Registration Costs
- Publication Costs
- Miscellaneous

Requests for purchase of equipment may be granted if strongly justified as essential to the proposed project; a current price quote should be included in the application appendix. During the course of the contract term, prior approval will be required for all equipment purchases that were not detailed in the application and its appendix.

Patient care and tuition reimbursement costs are not allowable expenses.

3. Facilities and Administrative Costs

F&A support is limited to a maximum of eight percent of modified total direct costs. Modified total direct costs consist of all salaries and wages, fringe benefits, materials and supplies, services, travel, and subgrants and subcontracts up to the first \$25,000 of each subgrant or subcontract (regardless of the period covered by the subgrant or subcontract). Equipment, capital expenditures, charges for patient care and tuition remission, rental costs, scholarships and fellowships, as well as the portion of each subgrant and subcontract in excess of \$25,000 shall be excluded from modified total direct costs.

If an award is made, F&A costs will be re-calculated from recommended and approved budget amounts. F&A costs will be calculated as the lower of the RFA-specified percentage of total direct costs or the amount recovered using the institution's current DHHS F&A rate. A copy of the DHHS F&A rate agreement should be included in the application appendix. In the absence of a DHHS agreement, an equivalently documented rate for the organization may be used. Subcontractor F&A costs are likewise limited, and must be included in the primary applicant's direct costs.

Personal Effort and Budget Justification – Form 6

Applicants should request funds appropriate for cost-effective performance of the proposed Work Plan. Funds awarded by this program may not be used to supplant other existing support for the same work.

Provide the information requested for key personnel and technical staff at the applicant organization, regardless whether financial support is requested. Insert additional lines as necessary. The "Total Salary + Fringe Requested" amount should equal Line 3, Year One, from Form 5. Follow with additional forms for collaborating or subcontracting institutions.

Starting with personnel, justify amounts requested in each budget category. Regardless whether financial support is requested, briefly describe the roles and expected contributions to the project of all key personnel and technical staff.

Provide a detailed justification for each “Other Than Personal Service” (e.g., supplies, equipment, travel, consultant costs and other expenses). Describe the necessity for equipment requested, noting the impact on the project if the request is not approved; provide alternative approaches to completing the work proposed without the equipment purchase.

Biographical Sketch – Form 7

Provide four-page biographical sketches for all key personnel listed on each Form 6, including collaborators and consultants. Start with the Principal Investigator followed by Co-PI(s), and then include remaining key personnel in alphabetical order.

Facilities and Resources – Form 8

Describe the facilities available for performance of the proposed Work Plan, starting with the applicant institution and followed by collaborating or subcontracting institutions. Also indicate the institutional commitment, including any additional facilities or equipment requested in support of the project or available for use at no cost to the project.

Work Plan – Form 9

Provide a clear Work Plan to accomplish the major goals of the program (see Section III. A. above). Include time frames for accomplishing related tasks and meeting established milestones. The Work Plan should include details of resources that will be used by the interns and any institutional commitments being made to support the internship program.

Time Line and Collaboration Strategy – Form 10

Complete the table provided. Describe strategies for information and/or resource exchange to ensure efficient and effective completion of the project. Include frequency and methods of communication. Note barriers to communication and resource exchange and propose alternative strategies to overcome potential problems.

B. Review and Award Process

1. Review and Scoring

Applications first will be examined by NYSTEM staff against Pass/Fail requirements (see Attachment 2). Applications that do not meet the mandatory requirements will not be considered for review, and the applicant institution and PI will be notified.

Each eligible application will be evaluated by an Independent Scientific Merit Peer Review Panel (the Panel) assigned by the Peer Review Contractor. The Panel will evaluate and score each proposal according to specified criteria (see Section V.D.). The Panel members will be selected from among non-New York State experts in the appropriate fields based on the nature of the applications received.

Applications will receive scores from each participating panel member for each evaluation criterion using a scale of zero (lowest) to 100 (highest). The scores will be added together. The reviewers' scores will then be averaged to determine the overall Panel score for the application. The Panel will also consider the appropriateness of the

requested project duration, effort and overlap with other resources. Additionally, the Panel will evaluate the application and comment with regard to the Contract Policy Statements and Conditions (Contract Appendix A-2).

The Panel will prepare a written summary for each application that includes a description of the application's strengths and weaknesses, note concerns, and may recommend revisions.

The Peer Review Contractor will deduct penalty points for each application that deviates from the instructions for completion of the application. The ESSCB Funding Committee will review application scores, summary statements, recommendations and comments for all applications that received a final Panel score of 60 or more. Applications with a score ranging from 59 to zero will not be considered for funding.

Funding is available to support approximately ten awards. The applications will be sorted in rank order (strongest to weakest score) and reviewed by the Funding Committee. The Funding Committee will discuss the application strengths and weaknesses, budget recommendations. When making funding recommendations, the Funding Committee will consider responsiveness to the mission of the ESSCB, responsiveness to the RFA, programmatic balance, availability of funds and compliance with Public Health Law Article 2, Title 5-A, Section 265.

All award recommendations made by the ESSCB Funding Committee may be made contingent upon acceptance of revisions to items on which the reviewers noted concerns or made recommendations.

The ESSCB Funding Committee will vote on each selected application in compliance with ESSCB bylaws as well as applicable laws and regulations. If an application for which there are available funds is not recommended for funding, the ESSCB Funding Committee will fully justify in writing why the application was not approved.

The ESSCB Funding Committee will make recommendations for funding to the Commissioner of Health. For applications that are not recommended for funding, the applicant institution and PI will be notified.

Following the award of grants from this RFA, applicants may request a debriefing from NYSTEM, no later than three months from the date of the award announcement. This debriefing will be limited to the positive and negative aspects of the subject application.

2. Award Decisions and Pre-Funding Requirements

Grant award contracts are entered into between New York State applicant organizations and the New York State Department of Health. Funding is contingent upon full execution of a contract between the applicant organization and the New York State Department of Health and approval by the Commissioner of Health, State Attorney General and State Comptroller.

Following approval by the Commissioner, applicant organizations and PIs recommended for support will receive formal notification in writing.

Prior to contract execution, program staff will require resolution/submission/confirmation of the following items, as relevant to each application:

- Revisions to Work Plan, project budget or duration
- Areas of possible concern with regard to the Contract Policy Statements and Conditions (Contract Appendix A-2)
- Approved Facilities and Administrative cost rate

3. Award Announcements

NYSTEM makes public in press releases or annual reports to the Governor and Legislature the project title, the PI(s), the name of the organization, total project costs and duration. The project abstract and progress report summaries may also be edited and made public.

C. Review Criteria

In addition to the specific criteria delineated in this section for each grant mechanism, the review panel will consider the appropriateness of:

- project duration
- effort
- overlap
- budget
- areas of possible concern with regard to the Contract Policy Statements and Conditions (Contract Appendix A-2).

The Review Panel may recommend revisions to the Funding Committee based on the above considerations. Awards may be made contingent upon acceptance of revisions to these items.

Five evaluation criteria are considered by the reviewers:

Internship Activities (30%)

The extent to which the application is responsive to the RFA and the mission of the ESSCB. Quality and quantity of proposed bench work, seminars, discussion groups and interactions with other stem cell researchers and experts from other disciplines interested in the social, legal and ethical implications of stem cell science. Demonstrated ability to provide internship program components as outlined in Section III. A. General Expectations.

Principal Investigator and Internship Mentors/Supervisors (30%)

The background and commitment of the Principal Investigator who will serve as program director. Overall scientific and research and training experience of the PI and mentors, as well as the availability of funding to support intern projects in stem cell biology and related fields.

Institutional Support (10%)

Evidence of a strong and sufficient commitment from the participating institutions and companies to provide existing resources available to support the program, including, but not limited to:

- Laboratory facilities
- Non-laboratory-based support for the program, including, but not limited to, cooperation of non-laboratory-based faculty, seminars and educational activities, experience-enrichment activities, housing support, inclusion of undergraduates from other programs
- Research management infrastructure.

Recruitment Activities (10%)

The demonstrated ability of the institution and PI to recruit interns and encourage applications from underrepresented minorities.

Budget (20%)

The appropriateness of the budget allocations to the accomplishment of the proposed internship program, including an assessment of cost reasonableness and percentage effort.

STATE OF NEW YORK

AGREEMENT

This AGREEMENT is hereby made by and between the State of New York agency (STATE) and the public or private agency (CONTRACTOR) identified on the face page hereof.

WITNESSETH:

WHEREAS, the STATE has the authority to regulate and provide funding for the establishment and operation of program services and desires to contract with skilled parties possessing the necessary resources to provide such services; and

WHEREAS, the CONTRACTOR is ready, willing and able to provide such program services and possesses or can make available all necessary qualified personnel, licenses, facilities and expertise to perform or have performed the services required pursuant to the terms of this AGREEMENT;

NOW THEREFORE, in consideration of the promises, responsibilities and covenants herein, the STATE and the CONTRACTOR agree as follows:

I. Conditions of Agreement

- A. This AGREEMENT may consist of successive periods (PERIOD), as specified within the AGREEMENT or within a subsequent Modification Agreement(s) (Appendix X). Each additional or superseding PERIOD shall be on the forms specified by the particular State agency, and shall be incorporated into this AGREEMENT.
- B. Funding for the first PERIOD shall not exceed the funding amount specified on the face page hereof. Funding for each subsequent PERIOD, if any, shall not exceed the amount specified in the appropriate appendix for that PERIOD.
- C. This AGREEMENT incorporates the face pages attached and all of the marked appendices identified on the face page hereof.
- D. For each succeeding PERIOD of this AGREEMENT, the parties shall prepare new appendices, to the extent that any require modification, and a Modification Agreement (the attached Appendix X is the blank form to be used). Any terms of this AGREEMENT not modified shall remain in effect for each PERIOD of the AGREEMENT.

To modify the AGREEMENT within an existing PERIOD, the parties shall revise or complete the appropriate appendix form(s). Any change in the amount of consideration to be paid, or change in the term, is subject to the approval of the Office of the State Comptroller. Any other modifications shall be processed in accordance with agency guidelines as stated in Appendix A-1.

- E. The CONTRACTOR shall perform all services to the satisfaction of the STATE. The CONTRACTOR shall provide services and meet the program objectives summarized in the Program Work plan (Appendix D) in accordance with: provisions of the AGREEMENT; relevant laws, rules and regulations, administrative and fiscal guidelines; and where applicable, operating certificates for facilities or licenses for an activity or program.

- F. If the CONTRACTOR enters into subcontracts for the performance of work pursuant to this AGREEMENT, the CONTRACTOR shall take full responsibility for the acts and omissions of its subcontractors. Nothing in the subcontract shall impair the rights of the STATE under this AGREEMENT. No contractual relationship shall be deemed to exist between the subcontractor and the STATE.
- G. Appendix A (Standard Clauses as required by the Attorney General for all State contracts) takes precedence over all other parts of the AGREEMENT.

II. Payment and Reporting

- A. The CONTRACTOR, to be eligible for payment, shall submit to the STATE's designated payment office (identified in Appendix C) any appropriate documentation as required by the Payment and Reporting Schedule (Appendix C) and by agency fiscal guidelines, in a manner acceptable to the STATE.
- B. The STATE shall make payments and any reconciliations in accordance with the Payment and Reporting Schedule (Appendix C). The STATE shall pay the CONTRACTOR, in consideration of contract services for a given PERIOD, a sum not to exceed the amount noted on the face page hereof or in the respective Appendix designating the payment amount for that given PERIOD. This sum shall not duplicate reimbursement from other sources for CONTRACTOR costs and services provided pursuant to this AGREEMENT.
- C. The CONTRACTOR shall meet the audit requirements specified by the STATE.

III. Terminations

- A. This AGREEMENT may be terminated at any time upon mutual written consent of the STATE and the CONTRACTOR.
- B. The STATE may terminate the AGREEMENT immediately, upon written notice of termination to the CONTRACTOR, if the CONTRACTOR fails to comply with the terms and conditions of this AGREEMENT and/or with any laws, rules and regulations, policies or procedures affecting this AGREEMENT.
- C. The STATE may also terminate this AGREEMENT for any reason in accordance with provisions set forth in Appendix A-1.
- D. Written notice of termination, where required, shall be sent by personal messenger service or by certified mail, return receipt requested. The termination shall be effective in accordance with the terms of the notice.
- E. Upon receipt of notice of termination, the CONTRACTOR agrees to cancel, prior to the effective date of any prospective termination, as many outstanding obligations as possible, and agrees not to incur any new obligations after receipt of the notice without approval by the STATE.

The parties to the attached contract, license, lease, amendment or other agreement of any kind (hereinafter, "the contract" or "this contract") agree to be bound by the following clauses which are hereby made a part of the contract (the word "Contractor" herein refers to any party other than the State, whether a contractor, licensor, licensee, lessor, lessee or any other party):

1. EXECUTORY CLAUSE. In accordance with Section 41 of the State Finance Law, the State shall have no liability under this contract to the Contractor or to anyone else beyond funds appropriated and available for this contract.

2. NON-ASSIGNMENT CLAUSE. In accordance with Section 138 of the State Finance Law, this contract may not be assigned by the Contractor or its right, title or interest therein assigned, transferred, conveyed, sublet or otherwise disposed of without the previous consent, in writing, of the State and any attempts to assign the contract without the State's written consent are null and void. The Contractor may, however, assign its right to receive payment without the State's prior written consent unless this contract concerns Certificates of Participation pursuant to Article 5-A of the State Finance Law.

3. COMPTROLLER'S APPROVAL. In accordance with Section 112 of the State Finance Law (or, if this contract is with the State University or City University of New York, Section 355 or Section 6218 of the Education Law), if this contract exceeds \$50,000 (or the minimum thresholds agreed to by the Office of the State Comptroller for certain S.U.N.Y. and C.U.N.Y. contracts), or if this is an amendment for any amount to a contract which, as so amended, exceeds said statutory amount, or if, by this contract, the State agrees to give something other than money when the value or reasonably estimated value of such consideration exceeds \$10,000, it shall not be valid, effective or binding upon the State until it has been approved by the State Comptroller and filed in his office. 7. NON-COLLUSIVE BIDDING CERTIFICATION. In accordance with Section 139-d of the State Finance Law, if this contract was awarded based upon the submission of bids, Contractor affirms, under penalty of perjury, that its bid was arrived at independently and without collusion aimed at restricting competition. Contractor further affirms that, at the time Contractor submitted its bid, an authorized and responsible person executed and delivered to the State a non-collusive bidding certification on Contractor's behalf.

8. BOYCOTT PROHIBITION. In accordance with Section 220-f of the Labor Law and Section 139-h of the State Finance Law, if this contract exceeds \$5,000, the Contractor agrees, as a material condition of the contract, that neither the Contractor nor any substantially owned or affiliated person, firm, partnership or corporation has participated, is participating, or shall participate in an international boycott in violation of the federal Export Administration Act of 1979 (50 USC App. Sections 2401 et seq.) or regulations thereunder. If such Contractor, or any of the aforesaid affiliates of Contractor, is convicted or is otherwise found to have violated said laws or regulations upon the final determination of the United States Commerce Department or any other appropriate agency of the United States subsequent to the contract's execution, such contract, amendment or modification thereto shall be rendered forfeit and void. The Contractor shall so notify the State Comptroller within five (5) business days of such conviction, determination or disposition of appeal (2NYCRR 105.4).

9. SET-OFF RIGHTS. The State shall have all of its common law, equitable and statutory rights of set-off. All invoices or New York State standard vouchers submitted for payment for the sale of goods or services or the lease of real or personal property to a New York State agency must include the payee's identification number, i.e., the seller's or lessor's identification number. Failure to include this number or numbers may delay payment. Where the payee does not have such number or numbers, the payee, on its invoice or New York State standard voucher, must give the reason or reasons why the payee does not have such number or numbers. (b) PRIVACY NOTIFICATION. (1) The authority to request the above personal information from a seller of goods or services or a lessor of real or personal property, and the authority to maintain such information, is found in Section 5 of the State Tax Law. Section 312 does not apply to: (i) work, goods or services unrelated to this contract; or (ii) employment outside New York State; or (iii) banking services, insurance policies or the sale of securities. The State shall consider compliance by a contractor or subcontractor with the requirements of any federal law concerning equal employment opportunity which effectuates the purpose of this section. The contracting agency shall determine whether the imposition of the requirements of the provisions hereof duplicate or conflict with any such federal law and if such duplication or conflict exists, the contracting agency shall waive the applicability of Section 312 to the extent of such duplication or conflict. Contractor will comply with all duly promulgated and lawful rules and regulations of the Governor's Office of Minority and Women's Business Development pertaining hereto.

b. CERTIFICATION REGARDING ENVIRONMENTAL TOBACCO SMOKE:

Public Law 103-227, also known as the Pro-Children Act of 1994 (Act), requires that smoking not be permitted in any portion of any indoor facility owned or leased or contracted for by an entity and used routinely or regularly for the provision of health, day care, early childhood development services, education or library services to children under the age of 18, if the services are funded by federal programs either directly or through State or local governments, by federal grant, contract, loan, or loan guarantee. The law also applies to children's services that are provided in indoor facilities that are constructed, operated, or maintained with such federal funds. The law does not apply to children's services provided in private residences; portions of facilities used for inpatient drug or alcohol treatment; service providers whose sole source of applicable federal funds is Medicare or Medicaid; or facilities where WIC coupons are redeemed. Failure to comply with the provisions of the law may result in the imposition of a monetary penalty of up to \$1000 for each violation and/or the imposition of an administrative compliance order on the responsible entity.

By signing this AGREEMENT, the CONTRACTOR certifies that it will comply with the requirements of the Act and will not allow smoking within any portion of any indoor facility used for the provision of services for children as defined by the Act. The CONTRACTOR agrees that it will require that the language of this certification be included in any subawards which contain provisions for children's services and that all subrecipients shall certify accordingly.

c. CERTIFICATION REGARDING DEBARMENT AND SUSPENSION

Regulations of the Department of Health and Human Services, located at Part 76 of Title 45 of the Code of Federal Regulations (CFR), implement Executive Orders 12549 and 12689 concerning debarment and suspension of participants in federal programs and activities. Executive Order 12549 provides that, to the extent permitted by law, Executive departments and agencies shall participate in a government-wide system for non-procurement debarment and suspension. Executive Order 12689 extends the debarment and suspension policy to procurement activities of the federal government. A person who is debarred or suspended by a federal agency is excluded from federal financial and non-financial assistance and benefits

under federal programs and activities, both directly (primary covered transaction) and indirectly (lower tier covered transactions). Debarment or suspension by one federal agency has government-wide effect.

Pursuant to the above-cited regulations, the New York State Department of Health (as a participant in a primary covered transaction) may not knowingly do business with a person who is debarred, suspended, proposed for debarment, or subject to other government-wide exclusion (including any exclusion from Medicare and State health care program participation on or after August 25, 1995), and the Department of Health must require its prospective contractors, as prospective lower tier participants, to provide the certification in Appendix B to Part 76 of Title 45 CFR, as set forth below:

i. APPENDIX B TO 45 CFR PART 76-CERTIFICATION REGARDING DEBARMENT, SUSPENSION, INELIGIBILITY AND VOLUNTARY EXCLUSION-LOWER TIER COVERED TRANSACTIONS

Instructions for Certification

- a) By signing and submitting this proposal, the prospective lower tier participant is providing the certification set out below.
- b) The certification in this clause is a material representation of fact upon which reliance was placed when this transaction was entered into. If it is later determined that the prospective lower tier participant knowingly rendered and erroneous certification, in addition to other remedies available to the Federal Government the department or agency with which this transaction originated may pursue available remedies, including suspension and/or debarment.
- c) The prospective lower tier participant shall provide immediate written notice to the person to which this proposal is submitted if at any time the prospective lower tier participant learns that its certification was erroneous when submitted or had become erroneous by reason of changed circumstances.
- d) The terms covered transaction, debarred, suspended, ineligible, lower tier covered transaction, participant, person, primary covered transaction, principal, proposal, and voluntarily excluded, as used in this clause, have the meaning set out in the Definitions and Coverage sections of rules implementing Executive Order 12549. You may contact the person to which this proposal is submitted for assistance in obtaining a copy of those regulations.
- e) The prospective lower tier participant agrees by submitting this proposal that, should the proposed covered transaction be entered into, it shall not knowingly enter into any lower tier covered transaction with a person who is proposed for debarment under 48 CFR part 9, subpart 9.4, debarred, suspended, declared ineligible, or voluntarily excluded from participation in this covered transaction, unless authorized by the department or agency with which this transaction originated.
- f) The prospective lower tier participant further agrees by submitting this proposal that it will include this clause titled "Certification Regarding Debarment, Suspension, Ineligibility and Voluntary Exclusion-Lower Tier Covered Transaction," without modification, in all lower tier covered transactions.
- g) A participant in a covered transaction may rely upon a certification of a prospective participant in a lower tier covered transaction that it is not proposed for debarment under

48 CFR part 9, subpart 9.4, debarred, suspended, ineligible, or voluntarily excluded from covered transactions, unless it knows that the certification is erroneous. A participant may decide the method and frequency by which it determines the eligibility of its principals. Each participant may, but is not required to, check the List of Parties Excluded From Federal Procurement and Non-procurement Programs.

- h) Nothing contained in the foregoing shall be construed to require establishment of a system of records in order to render in good faith the certification required by this clause. The knowledge and information of a participant is not required to exceed that which is normally possessed by a prudent person in the ordinary course of business dealings.
- i) Except for transactions authorized under paragraph "e" of these instructions, if a participant in a covered transaction knowingly enters into a lower tier covered transaction with a person who is proposed for debarment under 48 CFR part 9, subpart 9.4, suspended, debarred, ineligible, or voluntarily excluded from participation in this transaction, in addition to other remedies available to the Federal Government, the department or agency with which this transaction originated may pursue available remedies, including suspension and/or debarment.

2) Certification Regarding Debarment, Suspension, Ineligibility and Voluntary Exclusion – Lower Tier Covered Transactions

- a) The prospective lower tier participant certifies, by submission of this proposal, that neither it nor its principals is presently debarred, suspended, proposed for debarment, declared ineligible, or voluntarily excluded from participation in this transaction by any Federal department agency.
- b) Where the prospective lower tier participant is unable to certify to any of the statements in this certification, such prospective participant shall attach an explanation to this proposal.

- 6. The STATE, its employees, representatives and designees, shall have the right at any time during normal business hours to inspect the sites where services are performed and observe the services being performed by the CONTRACTOR. - 9. The CONTRACTOR shall comply with all applicable federal, State and local civil rights and human rights laws with reference to equal employment opportunities and the provision of services.
- 10. The STATE may cancel this AGREEMENT at any time by giving the CONTRACTOR not less than thirty (30) days written notice that on or after a date therein specified, this AGREEMENT shall be deemed terminated and cancelled.

11. Where the STATE does not provide notice to the NOT-FOR-PROFIT CONTRACTOR of its intent to not renew this contract by the date by which such notice is required by Section 179-t(1) of the State Finance Law, then this contract shall be deemed continued until the date that the agency provides the notice required by Section 179-t, and the expenses incurred during such extension shall be reimbursable under the terms of this contract.

APPENDIX A-2
Empire State Stem Cell Board
Contract Policy Statements and Conditions
(Rev. 8/08)

A. Ethical Considerations

The Empire State Stem Cell Board (ESSCB) stipulates that each awarded grant contract satisfy the following requirements:

In accepting an award from the New York State Department of Health for support from the Empire State Stem Cell Fund, the contracting organization shall ensure that each project investigator agrees to conform strictly to the codes of practice, regulations and laws governing ethical conduct of scientific research in his/her own laboratory/institution. He/she shall be solely responsible for any violation of these standards. If experimental procedures conducted pursuant to this project are performed in another state or country, either directly by the Principal Investigator (PI) and any co-investigators, or in collaboration with other persons, the PI and contracting organization shall ensure that such research complies with New York State laws and regulations that would be applicable to such research if performed in New York State. Representatives of the contracting organization will inform NYSTEM program administrators of any and all instances of actual or potential lapses in scientific integrity by any project participant as soon as this information becomes known to the contracting entity. The contracting organization is fully responsible for investigation of these instances.

B. Human Subjects Research

Human subjects research is essential to the continued advancement of scientific knowledge concerning stem cell biology. In carrying out such research, the rights and welfare of all individual research participants are of critical importance. Furthermore, additional safeguards must protect especially vulnerable research subjects, including minors, mentally disabled adults who lack capacity to provide informed consent to research participation, and prisoners.

Accordingly, no research study shall be approved for funding recommendation by ESSCB unless it is demonstrated that all the following requirements are satisfied:

- The research study will comply with New York State Public Health Law (PHL) Article 24-A, Sections 2440 to 2446, unless the research is subject to, and in compliance with, policies and regulations promulgated by any agency of the federal government for the protection of human subjects.
- The research study will comply with 45 CFR Part 46 (unless exempt from the requirements of this Part) and, if applicable, 21 CFR Parts 50 and 56; 21 CFR 312; 21CFR 361; 21 CRF 812.
- The research study will comply with all other applicable federal and New York State laws, regulations and guidelines.
- The research study has been approved by an Institutional Review Board (IRB).

- If applicable, the applicant organization's IRB has received, reviewed, and accepted written approval from an authorized representative of each site where the study will take place.
- The IRB has determined that the investigator will immediately withdraw a subject from the research study if continued participation would be detrimental to the subject's well-being.
- The IRB will communicate to NYSTEM program administrators (i) any unanticipated problems involving risks to subjects, (ii) any serious or continuing noncompliance with IRB policy or requirements; and (iii) any suspension or termination of IRB approval of the research study.

Vulnerable Populations

Under Article 24-A of the New York State Public Health Law, research which has no prospect of providing direct benefit and posing more than minimal risk to research participants is prohibited for research participants who are minors, mentally disabled adults who lack capacity to provide informed consent to research participation, or prisoners. No research study in which any research participant is a minor, a mentally disabled adult who lacks capacity to provide informed consent to research participation or a prisoner shall be approved by ESSCB unless it is demonstrated to the Board, and the Board determines, that **all** the following requirements, in addition to the requirements set forth above, are satisfied:

- The IRB has determined that the research study constitutes either: research with a prospect of direct benefit to research participants; or research with no prospect of direct benefit to research participants that presents minimal risk.
- If the research involves one or more mentally disabled adult, each investigator must use IRB approved methodologies and procedures for initial capacity assessment of those individuals, including: procedures for notice to a prospective subject that his/her capacity to consent to research is under consideration; notice to a prospective subject of a determination that he/she lacks the capacity to consent to research; and the opportunity for a prospective subject to contest such a determination of incapacity through a second opinion and a judicial proceeding prior to enrollment in the research.
- The IRB has determined that, prior to involving in a research study a minor, a mentally disabled adult who lacks the capacity to provide informed consent to research participation, or a prisoner, each investigator will obtain such individual's assent to research participation.¹

The Department of Health reserves the right to revise or expand requirements applicable to human subjects research as part of negotiation of any contract arising from this request for applications.

¹ A minor's objection need not be honored if an independent physician determines that the research intervention or procedure holds out a prospect of direct benefit that is important to the health or well-being of the minor, and is available only within the context of the research.

C. Animal Use

ESSCB requires that all individuals and institutions that conduct research using animals supported by the Empire State Stem Cell Fund adhere to all federal, state and local laws pertaining to humane care and use of animals for research purposes. Research applications submitted to the Board for consideration must have been reviewed and approved by an Institutional Animal Care and Use Committee (IACUC) whose guidelines are in compliance with the U.S. Public Health Service's *Policy on Humane Care and Use of Laboratory Animals*, and *Guide for the Care and Use of Laboratory Animals*, as well as any other federal, state and local laws or regulations (e.g., the federal Animal Welfare Act and its implementing regulations; and PHL Article 5, Title I, Sections 504 and 505-a).

D. Tissue

ESSCB will support research using human tissue and require that such research adhere to all federal, state and local laws and regulations pertaining to use of such tissue, including, but not limited to, 42 USC Section 289g et seq.; Public Health Law Article 5, Title V, sections 570 to 581; Article 24-A, sections 2440 to 2446; Article 43, sections 4301 to 4309; Article 43-B, sections 4360 to 4366; and 10 NYCRR Part 52.

E. Human Embryonic Stem Cell Research

1. *Scope.* The following types of research ("Human Stem Cell Research" or "HSC Research") are subject to the requirements of this section.

Research involving:

- a) human embryonic stem cells;
 - b) human totipotent or pluripotent cells;
 - c) human pluripotent stem cell lines;
 - d) human neural and gonadal progenitor stem cells; or
 - e) other human somatic tissues for stem cell research (excluding cells that remain restricted in tissue potential and are not known to possess totipotent or pluripotent potential).
2. *National Academy of Science (NAS) and International Society of Stem Cell Research (ISSCR) Guidelines.* HSC Research must comply with either NAS or ISSCR Guidelines to the extent applicable, and must also comply with any additional or conflicting requirements of this Contract.

3. *Embryonic Stem Cell Research Oversight (ESCRO) Committees.*
- a) HSC Research must be approved by an Embryonic Stem Cell Research Oversight (ESCRO) Committee that meets the standards set forth in the NAS or ISSCR Guidelines and in paragraph (d) below. However, research permissible without ESCRO Committee review under Category 1 of the ISSCR Guidelines or Section 1.2 (a) of the NAS Guidelines shall not require ESCRO review if notification is provided to the ESCRO Committee.¹
 - b) The ESCRO Committee shall be responsible for the initial and ongoing review and oversight of the research at the institution where the research is being conducted.
 - c) The ESCRO Committee shall ensure that research complies with either NAS or ISSCR Guidelines to the extent such Guidelines are applicable, and also complies with any additional or conflicting requirements of this Contract.
 - d) The ESCRO Committee shall create and follow written policies that include the following standards:
 - i) Committee Membership: The membership of the ESCRO Committee responsible for oversight for the contracting institution should have sufficient diversity among its members, including consideration of race, gender and background, and should be sensitive to such issues as community attitudes, to promote respect for its advice and counsel. The ESCRO Committee should be composed of qualified persons of both sexes. The members present at a meeting in which research funded under this contract is approved by the ESCRO Committee must include at least one scientist with relevant expertise and one ethicist. The purpose of diverse membership on the ESCRO Committee is to ensure that different perspectives are given a voice; the ESCRO Committee should encourage different perspectives and voices in its discussion of protocols and in its minutes.

¹ Category 1 of the ISSCR Guidelines (section 10.1) provides: "Experiments that are permissible after review under existing mandates and by existing local committees, and are determined to be exempt from full SCRO review. These will include experiments with pre-existing human embryonic stem cell lines that are confined to cell culture or involve routine and standard research practice, such as assays of teratoma formation in immune-deficient mice. We recommend that all institutions pursuing such research establish a mechanism capable of determining that a) these projects can be adequately reviewed by committees with jurisdiction over research on human tissues, animals, biosafety, radiation, etc. and b) that full review by a SCRO mechanism or body is not required. This mechanism should include a determination that the provenance of the human embryonic stem cell lines to be used has been scrutinized and deemed acceptable according to the principles outlined in this document, and that such research is in compliance with scientific, legal and ethical norms."

Section 1.2(a) of the NAS Guidelines provides: "Purely in vitro hES cell research that uses previously derived hES cell lines is permissible provided that the ESCRO committee or equivalent body designated by the investigator's institution (see Section 2.0) receives documentation of the provenance of the cell lines including (i) documentation of the use of an acceptable informed consent process that was approved by an Institutional Review Board (IRB) or foreign equivalent for their derivation (consistent with Section 3.6); and (ii) documentation of compliance with any additional required review by an Institutional Animal Care and Use Committee (IACUC), Institutional Biosafety Committee (IBC), or other institutionally mandated review."

- ii) Conflict of Interest Policies: The policies shall address conflicts of interest in a manner that is in alignment with other institutional conflict of interest policies, including, but not limited to, those governing the activities of the IRB. Such policies shall preclude a member from participating in the initial or continuing review of any project in which the member has a conflicting interest, except to provide information requested by the ESCRO Committee.

- iii) Recordkeeping: The policies shall address recordkeeping requirements for the activities of the ESCRO Committee and for research reviewed by the Committee that are in alignment with the policies developed by the institution's IRB in accordance with the requirements of 45 CFR Part 46 and guidance issued by the Office for Human Research Protections. In addition, the ESCRO Committee shall develop and adhere to policies for maintaining records relating to the provenance of all stem cell lines used in funded research, consent of gamete donors, applicable ethical research standards, and reports of adverse or unexpected outcomes that pose a threat to the health or safety of any individual or raise new ethical issues. Records relating to the activities and review of the ESCRO Committee and to the research conducted shall be retained for at least six years after completion of the research. All records shall be accessible for inspection and copying by authorized representatives of the Department of Health at reasonable times and in a reasonable manner.

- 4. *Consent to Donation*: Consent to donate gametes or embryos to research must be obtained prior to donation. With respect to obtaining re-consent from gamete or embryo donors immediately prior to donation to research, the ESCRO Committee should apply the standards set forth in ISSCR Guidelines 11.2, but may choose to use the stricter NAS Guidelines.

- 5. *Payment*: The ESCRO Committee should review information, where available, regarding the payment of donors who produced gametes originally for reproductive purposes to ensure compliance with the ISSCR Guidelines 11.5(a). Where no such information is reasonably available, the ESCRO Committee need not ensure that payment history complies with either NAS or ISSCR Guidelines.

F. Publication and Intellectual Property Rights

- 1. It is ESSCB's intent that the results of research it supports through its sponsorship be disseminated and made easily available to the research community and the lay public. Manuscript submission for publication of research funded by the Fund shall not be delayed by investigators or their research institutions for more than 60 days after the manuscript is completed. Research results are to be submitted promptly for publication in internationally recognized scientific journals. Publication should not be delayed for commercial or other reasons beyond the editorial period needed to ensure scientific accuracy and presentation.

- a. All publications reporting research supported by NYSTEM funds published in peer reviewed journals must be deposited in the National Institutes of Health National Library of Medicine's PubMed Central (PMC). NYSTEM encourages investigators to sign copyright agreements that specifically allow the published manuscript to be deposited for public posting on PMC. As investigators are encouraged to publish NYSTEM-funded research findings as "open access" publications, contract funds may be used to cover costs required for such "open access" publication.
 - b. An electronic copy of each such publication must be filed with the progress report pursuant to the contract.
 - c. Within 60 days of publication, the investigator must submit to NYSTEM program administrators a 500 word abstract of the publication suitable for the general public, highlighting the research findings. A full literature citation and a brief biographical sketch of the NYSTEM-funded Principal Investigator must also be submitted. This information will be made available to the public through the NYSTEM website.
 - d. Support by the Empire State Stem Cell Fund shall be acknowledged in all publications, presentations and products of research in a form consistent with the publication's guidelines, e.g.,: "supported by the Empire State Stem Cell Fund through New York State Department of Health Contract # <<>>. Opinions expressed here are solely those of the author and do not necessarily reflect those of the Empire State Stem Cell Board, the New York State Department of Health, or the State of New York."
2. It is ESSCB's intent that the resources, materials and methods created through its sponsorship be disseminated and made easily available to the research community. All such materials described in invention disclosures, publications, or other public forums shall be made available to requesting investigators. The contractor may collect reasonable costs for provision of such resources and may require execution of appropriate material transfer agreements, licenses, or confidentiality agreements (see paragraph #4, below).
3. With regard to ESSCB funded research, where the grantee organization has not made reasonable efforts to protect the property interests or because the grantee has failed to share the research developments, the State shall retain march-in rights. The State shall have perpetual royalty-free, non-exclusive and irrevocable right to reproduce, publish or otherwise use, and to authorize others to use, for research and governmental purposes only, any published or otherwise reproducible material, device, invention, technique, material, or methodology developed under or in the course of performing this funded research, dealing with any aspect of the research activity, or of the results and accomplishments attained from the research.
4. The contractor must have written agreements with researchers requiring prompt disclosure of inventions made in the performance of ESSCB-funded research. Within 60 days of such disclosure the contractor shall notify NYSTEM of the invention disclosure. The contractor shall notify NYSTEM upon the filing of any patent application in the progress report pursuant to the contract. The contractor shall provide NYSTEM with advance written notice of any assignment or transfer of intellectual property rights generated as a result of research supported by the Fund. Any such assignment or transfer must acknowledge, and be subject to the rights retained by the State pursuant to the above paragraph #2.

Assignment and ownership allocation of intellectual and industrial property rights generated from research supported by the Fund is to be determined by the parties concerned (researchers, and their research organizations or institutions), consistent with organizational policies. Prior to execution of a negotiated contract, appropriate arrangements (existing or proposed) regarding intellectual and industrial property rights must be made by the contracting organization and communicated to NYSTEM program administrators. Such arrangements may include: provisions about dissemination of information such as disclosure and methods of publication, and provisions regarding ownership and exploitation of the results arising from the research supported by the Fund. However, to protect the State's interests and to streamline invention reporting procedures, contracts between the New York State Department of Health and the contracting institution will, except to the extent inconsistent with this paragraph, incorporate the provisions of 37 CFR 401.14 with the following modifications throughout: *Federal or Government* will refer to New York State, and *agency* will refer to the Department of Health.

5. Contractor agrees, pursuant to the provisions of the New York State Administrative Procedure Act relating to access to data, added by Chapter 647 of the Laws of 1999, and Chapter 229 of the Laws of 2000, to provide the Department with the study, any data supporting that study, and the identity of the principal person or persons who performed such study. If such study is used as the basis for the promulgation, amendment, or repeal of a rule, regulation, or guideline used in enforcement of a statute, rule, or regulation, the study, any data supporting that study, and the identity of the principal person or persons who performed the study shall be subject to disclosure in accordance with the law.

G. Reporting Requirements

Scientific/Technical and Financial Reports shall be submitted as provided in Appendix C.

H. Equipment

Requests for purchase of equipment may be granted if strongly justified as essential to the proposed project; a current price quote should be included in the application appendix. During the course of the contract term, prior approval will be required for all equipment that was not detailed in the application and its appendix.

Equipment may not be purchased within ninety (90) days of contract termination.

Upon satisfactory completion of the contract, as determined by the State Department of Health, all equipment purchased hereunder may be retained by the contractor.

I. Other Information

1. Documents submitted to the Department of Health on behalf of NYSTEM will not be returned to the applicant.
2. Appendix B (Budget) may be reviewed and revised each year, depending on research progress and the availability of funds.

3. The New York State Department of Health may require reimbursement of all or a part of the award if ineligible expenses have been incurred or inaccurate accounting statements have been submitted.
4. Neither the Department of Health nor the State of New York will assume any responsibility for any damage or injuries caused or resulting from research conducted with the financial support of the Fund.
5. Recipient entities accept auditing of their contract expenditures by an appointed representative of NYSTEM at any reasonable time.
6. Assurances and Certifications. The New York State ESSCB has adopted the following federal regulatory mechanisms to ensure responsible administration of its awards and to preserve the integrity of the research enterprise it supports. By signing this Grant Contract, the authorized representative of the organization certifies that, in addition to all applicable state and local statutes and regulations, the applicant organization will comply with applicable federal regulations and statutes, including but not limited to:
 - a. *Vertebrate Animals:*
 - Animal Welfare Act as amended (7 USC 2131 et sec.), if applicable, and other federal statutes and regulations relating to animal care and use.
 - b. *Research Misconduct:*
 - 42 CFR Part 50, Subpart A, "Responsibilities for PHS awardees and applicant institutions for dealing with and reporting possible misconduct in science."
 - 42 CFR 94, "Public Health Service standards for the protection of research misconduct whistleblowers" (effective on the date set forth in the final rule).
 - Each covered institution must certify that it will comply with the above policies and the requirements of the Final Rule.
 - A copy of the institution's Annual Report on Possible Research Misconduct (Form 6349), routinely sent to all PHS awardees by the Office of Research Integrity, shall be forwarded to NYSTEM program administrators.
 - c. *Conflict of Interest*
 - 42 CFR 50, Subpart F, "Responsibility of applicants for promoting objectivity in research for which PHS funding is sought."

The Department of Health reserves the right to revise or expand the requirements applicable to research conduct, as well as legal and administrative oversight.

PAYMENT AND REPORTING SCHEDULE

Summer Undergraduate Experience in Stem Cell Research (Rev. 5/08)

I. Payment and Reporting Terms and Conditions

A. The State (NYS Department of Health) may, at its discretion, make an advance payment to the CONTRACTOR, during the initial or any subsequent PERIOD, in an amount to be determined by the STATE but not to exceed 25 percent of the maximum amount indicated in the budget as set forth in the most recently approved Appendix B. If this payment is to be made, it will be due thirty calendar days, excluding legal holidays, after the later of either:

- the first day of the contract term specified in the Initial Contract Period identified on the face page of the AGREEMENT or if renewed, in the PERIOD identified in the Appendix X, OR
- if this contract is wholly or partially supported by Federal funds, availability of the federal funds;

provided, however, that a STATE has not determined otherwise in a written notification to the CONTRACTOR suspending a Written Directive associated with this AGREEMENT, and that a proper voucher for such advance has been received in the STATE's designated payment office. If no advance payment is to be made, the initial payment under this AGREEMENT shall be due thirty calendar days, excluding legal holidays, after the later of either:

- the end of the first monthly/quarterly period of this AGREEMENT; or
- if this contract is wholly or partially supported by federal funds, availability of the federal funds:

provided, however, that the proper voucher for this payment has been received in the STATE's designated payment office.

- B. No payment under this AGREEMENT, other than advances as authorized herein, will be made by the STATE to the CONTRACTOR unless proof of performance of required services or accomplishments is provided. If the CONTRACTOR fails to perform the services required under this AGREEMENT the STATE shall, in addition to any remedies available by law or equity, recoup payments made but not earned, by setoff against any other public funds owed to CONTRACTOR.
- C. Any optional advance payment(s) shall be applied by the STATE to future payments due to the CONTRACTOR for services provided during the initial or subsequent PERIODS. Should funds for subsequent PERIODS not be appropriated or budgeted by the STATE for the purpose herein specified, the STATE shall, in accordance with Section 41 of the State Finance Law, have no liability under this AGREEMENT to the CONTRACTOR, and this AGREEMENT shall be considered terminated and cancelled.
- D. The CONTRACTOR will be entitled to receive payments for work, projects, and services rendered as detailed and described in the Work Plan, Appendix D. All payments shall be in conformance with the rules and regulations of the Office of the State Comptroller.
- E. The CONTRACTOR will provide the STATE with the reports of progress or other specific work products pursuant to this AGREEMENT as described in this Appendix below. In addition, a final

report must be submitted by the CONTRACTOR no later than 60 days after the end of this AGREEMENT. All required reports or other work products developed under this AGREEMENT must be completed as provided by the agreed upon work schedule in a manner satisfactory and acceptable to the STATE in order for the CONTRACTOR to be eligible for payment.

- F. The CONTRACTOR shall submit to the STATE quarterly voucher claims and reports of expenditures on such forms and in such detail as the STATE shall require. The CONTRACTOR shall submit vouchers to the STATE's designated payment office located in the:

**NYS Department of Health
Wadsworth Center, Room D350
Extramural Grants Administration
Empire State Plaza
PO Box 509
Albany, NY 12201-0509**

All vouchers submitted by the CONTRACTOR pursuant to this AGREEMENT shall be submitted to the STATE no later than thirty (30) days after the end date of the period for which reimbursement is claimed (see Table I for annual schedule). In no event shall the amount received by the CONTRACTOR exceed the budget amount approved by the STATE, and, if actual expenditures by the CONTRACTOR are less than such sum, the amount payable by the STATE to the CONTRACTOR shall not exceed the amount of actual expenditures. All contract advances in excess of actual expenditures will be recouped by the STATE prior to the end of the applicable budget period.

- G. If the CONTRACTOR is eligible for an annual cost of living adjustment (COLA), enacted in New York State Law, that is associated with this grant AGREEMENT, payment of such COLA shall be made separate from payments under this AGREEMENT and shall not be applied toward or amend amounts payable under Appendix B of this AGREEMENT.

Before payment of a COLA can be made, the STATE shall notify the CONTRACTOR, in writing, of eligibility for any COLA. The CONTRACTOR shall be required to submit a written certification attesting that all COLA funding will be used to promote the recruitment and retention of staff or respond to other critical non-personal service costs during the State fiscal year to which the cost of living adjustment was allocated, or provide any other such certification as may be required in the enacted legislation authorizing the COLA.
