I. Introduction

A. Background

Stem cell science is a rapidly expanding field and trained personnel are in short supply at all career levels. To sustain a strong and innovative stem cell research community, New York State must be able to recruit and retain promising young stem cell investigators in the early stages of their careers. With stable funding, resources and training, new investigators can pursue innovative research projects that will form the basis of a productive career.

NYSTEM, the New York State Stem Cell Science Program, is charged with administering stem cell research funding based on recommendations and advice from the Empire State Stem Cell Board (ESSCB). In conjunction with NYSTEM, the ESSCB solicits, reviews, and makes funding recommendations for creative and innovative projects to be supported by the Empire State Stem Cell Trust Fund. Information about the ESSCB and NYSTEM can be found at <http://stemcell.ny.gov>.

B. Purpose of the Funds

This RFA provides funding for institution-based training programs (similar to NIH T32 awards) that will enable New York State to attract and retain the most promising and exceptionally talented predoctoral and postdoctoral fellows. The intent of this initiative is to support the continued training of researchers with extraordinary potential for making significant contributions to the fields of stem cell-related research.

The supported training program and related research efforts may focus on any aspect(s) of stem cell biology (basic, applied, translational, pre-clinical or clinical research) that will lead to a better understanding of the unique properties of stem cells and the development of applications for the diagnosis, prevention or treatment of disease.

C. Available Funds

All awards will be financed by the Empire State Stem Cell Trust Fund. The number of awards and total funds awarded per application will be contingent on the quality and content of applications received as well as the scale and scope of the proposed programs. Approximately \$7.5 million is available to support approximately four awards from this RFA. This funding is for a period up to five years. No award may exceed \$350,000 in annual direct costs (a maximum of 8 training slots per year). Additionally, funds will be available to support Facilities and Administrative (F&A) costs of up to eight percent (8%) of the modified total direct costs.

II. Who May Apply

The applicant must be a not-for-profit or governmental organization in New York State. In addition, applicants for predoctoral training programs must be degree-granting institutions. The applicant may not be a recipient of NYSTEM Institutional Training funds under the previous RFA (FAU#0906290930). Individual fellows may not apply. Awarded organizations will be expected to monitor the use of funds, maintain individual accounts and fulfill other fiscal management criteria. Subcontracting and collaborating organizations may include public, not-for-profit and for-profit entities within or outside of New York State. Subcontracted and collaborating non-degree-granting entities may accept and monitor predoctoral trainees through this program, provided that policies of the applicant and sub-applicant institutions both allow it, and that the collaboration strategies clearly provide a robust training experience for the predoctoral trainees. No preferences are given in program composition in terms of single institution, multi-institution, in-state or out-of-state collaborations.

The eligible program director (PD) for the application is designated by the applicant institution and must have the scientific background, leadership and administrative capabilities required to coordinate, supervise and direct the proposed research training program described in the Workplan. At the time of application and award acceptance, the PD must not be restricted from receiving Public Health Service (PHS) funding or debarred by the United States Food and Drug Administration (FDA) or any other federal or New York State government entity.

An individual may serve as a PD on only one application in response to this RFA and only one application will be accepted from any single institution. **In the event that more than one application is received from a PD or institution, all applications from that PD or institution will be disqualified, will not be considered and will not be forwarded to peer review.**

Submission of a signed application certifies that the applicant organization and the PD meet the eligibility criteria stated herein.

III. Project Narrative/Workplan Outcomes

A successful application will provide evidence of a commitment to stem cell-related research and a proven track record in training and mentoring predoctoral and/or postdoctoral fellows in biomedical and/or stem cell research. It will be consistent with the objectives outlined in Section I.B., Purpose of the Funds. The program will be administered by the applicant institution and the PD will be responsible for meeting the overall program goals and reporting requirements. Additional program policies, consistent with the requirements of this RFA, are expected to be developed by the applicant institution and detailed in the application.

A. The Training Program

Each application will establish a number of training slots for predoctoral and/or postdoctoral trainees in stem cell-related research at eligible institutions in New York State. The program may be structured so that the number of training slots is different in each year of the expected contract term, provided that stated expense maximums are not exceeded (see page 44 for details).

Each training slot will be designated as a full time 12-month commitment at 100% professional effort, though it is expected that trainees may rotate off the program to accept individual fellowships and other opportunities and be replaced by other trainees.

B. Mentors

A sufficient number of mentors should be available to support the number and level of trainees accepted to the program. The research experience of the mentors should align with the overall goals and allow for sustainability of the training program. Mentors should be carefully selected and matched to trainees. Selected mentors should be conducting sufficiently supported stem cell research activities to properly engage and train participating fellows and to provide a rich research environment for the fellowship program participants throughout the term of the contract. While it is acceptable to include individual mentors on multiple training program applications, care should be taken to demonstrate that sufficient research support is available to the mentor who may then be asked to accept trainees from multiple awards.

C. Trainee Eligibility

Contractors will ensure all of the requirements in this Section C are met in the program implementation:

1. General Trainee Requirements

There are no citizenship restrictions on trainees. Trainees must commit a full time, 100% professional effort directly associated with the stem cell training program. It is possible that a trainee may be working on a stem cell project related to one or more of the mentor's awards as part of their training, but the trainee cannot receive remuneration from any other award while on the training program. Further, the trainee's time cannot be devoted to activities or projects other than those that are recognized as part of this stem cell training program.

2. Predoctoral Trainees

Predoctoral trainees accepted into the program will conduct relevant projects in stem cell-related research laboratories. Predoctoral trainees will have received a baccalaureate degree by the beginning date of the appointment, be training at the post-baccalaureate level, and enrolled in a program leading to a PhD in science or in an equivalent research doctoral degree program. Students pursuing a dual degree (e.g., MD/PhD, DDS/PhD) may be supported for the PhD research rotation portion of their studies, as long as that requires/allows a full-time 100% commitment to the research training program.

3. Postdoctoral Trainees

Postdoctoral trainees accepted into the program will conduct well-defined projects in stem cell-related research laboratories. Postdoctoral trainees will have received, as of the beginning date of the appointment, a doctoral or equivalent degree from an accredited domestic or foreign institution.

IV. Administrative Requirements

A. Issuing Agency

This RFA is issued by the New York State Department of Health (Department), NYSTEM program. The Department is responsible for the requirements specified herein and for the evaluation of all applications.

B. Question and Answer Phase

All substantive questions must be submitted in writing to:

Mary Rogers
Extramural Grants Administration
stemadm@health.state.ny.us

To the degree possible, each inquiry should cite the RFA section and paragraph to which it refers. Written questions will be accepted until the date posted on the cover of this RFA.

Questions of a technical nature can be addressed in writing or via telephone by calling Bonnie Jo Brautigam at (518) 474-7002. Questions are of a technical nature if they are limited to how to prepare the application (e.g., formatting) rather than relating to the substance of the application.

Prospective applicants should note that all clarifications and exceptions, including those relating to the terms and conditions of the contract, are to be raised prior to the submission of an application.

This RFA has been posted on the Department of Health's public website at <http://www.health.ny.gov/funding> and the NYS Grants Gateway website at: https://www.grantsgateway.ny.gov/IntelliGrants_NYSGG/module/nysgg/goportal.aspx. Questions and answers, as well as any updates and/or modifications, will also be posted on these websites. All such updates will be posted by the date identified on the cover sheet of this RFA.

C. Letter of Intent

The prospective applicant institution is **strongly encouraged** to submit a Letter of Intent using the form provided in this RFA (Attachment 3). This form will be used to develop the review panel in a timely manner. Please do not submit additional information about the application with the form. Letters of Intent infer no obligation upon the institution to submit an application in response to this RFA. Applications may be submitted without first having submitted a Letter of Intent.

The completed Letter of Intent should be received by the date and time indicated on the cover sheet to this RFA and mailed to the address listed below in Section IV.E. Alternatively, a scanned Portable Document Format (PDF) file of the Letter of Intent with original signatures may be forwarded to stemadm@health.state.ny.us.

D. Applicant Conference

An applicant conference will be held to give potential applicants the opportunity to receive an overview of the RFA and ask specific questions. The conference will be held via telephone conference call only on the date and time posted on the cover sheet of this RFA. The Department requests that potential applicants register for this conference by calling (518) 474-7002 to ensure a sufficient number of conference phone lines. The deadline for reservations is posted on the cover page of this RFA. Failure to attend the applicant conference will not preclude the submission of an application.

E. How to Complete and File an Application

All payment and reporting requirements will be detailed in Attachment D of the final NYS Master Grant Contract.

I. Minority & Woman-Owned Business Enterprise Requirements

Pursuant to New York State Executive Law Article 15-A, the New York State Department of Health (“DOH”) recognizes its obligation to promote opportunities for maximum feasible participation of certified minority-and women-owned business enterprises and the employment of minority group members and women in the performance of DOH contracts.

In 2006, the State of New York commissioned a disparity study to evaluate whether minority and women-owned business enterprises had a full and fair opportunity to participate in state contracting. The findings of the study were published on April 29, 2010, under the title "The State of Minority and Women-Owned Business Enterprises: Evidence from New York" (“Disparity Study”). The report found evidence of statistically significant disparities between the level of participation of minority-and women-owned business enterprises in state procurement contracting versus the number of minority-and women-owned business enterprises that were ready, willing and able to participate in state procurements. As a result of these findings, the Disparity Study made recommendations concerning the implementation and operation of the statewide certified minority- and women-owned business enterprises program. The recommendations from the Disparity Study culminated in the enactment and the implementation of New York State Executive Law Article 15-A, which requires, among other things, that DOH establish goals for maximum feasible participation of New York State Certified minority- and women – owned business enterprises (“MWBE”) and the employment of minority groups members and women in the performance of New York State contracts.

Business Participation Opportunities for MWBEs

For purposes of this solicitation, the New York State Department of Health hereby establishes a goal of **0%** on any subcontracted labor or services, equipment, materials, or any combined purchase of the foregoing greater than \$25,000 under a contract awarded from this solicitation. The goal on the eligible portion of this contract will be 0% for Minority-Owned Business Enterprises (“MBE”) participation and 0% for Women-Owned Business Enterprises (“WBE”) participation (based on the current availability of qualified MBEs and WBEs and outreach efforts to certified MWBE firms). A contractor (“Contractor”) on the subject contract (“Contract”) must document good faith efforts to provide meaningful participation by MWBEs as subcontractors or suppliers in the performance of the Contract and Contractor agrees that DOH may withhold payment pending receipt of the required MWBE documentation. For guidance on how DOH will determine “good faith efforts,” refer to 5 NYCRR §142.8.

The directory of New York State Certified MWBEs can be viewed at: <https://ny.newnycontracts.com>. The directory is found in the upper right hand side of the webpage under “Search for Certified Firms” and accessed by clicking on the link entitled “MWBE Directory.” Engaging with firms found in the directory with like product(s) and/or service(s) is strongly encouraged and all communication efforts and responses should be well documented.

This RFA does not establish minimum goals for participation of minority or women-owned business. Therefore, completion of the MWBE Utilization Plan is optional (Attachment 5). Funded applicants are encouraged to engage with firms found in the directory for the acquisition of required product(s) and/or service(s) associated with this grant.

In addition, successful awardees will be required to certify they have an acceptable Equal Employment Opportunity policy statement.

J. Limits on Administrative Expenses and Executive Compensation

Effective July 1, 2013, limitations on administrative expenses and executive compensation contained within Governor Cuomo’s Executive Order #38 and related regulations published by the Department (Part 1002 to 10 NYCRR – Limits on Administrative Expenses and Executive Compensation) went into effect. Applicants agree that all state funds dispersed under this procurement will, if applicable to them, be bound by the terms, conditions, obligations and regulations promulgated by the Department. To provide assistance with compliance regarding Executive Order #38 and the related regulations, please refer to the Executive Order #38 website at: <http://executiveorder38.ny.gov>.

K. Vendor Identification Number

Effective January 1, 2012, in order to do business with New York State, you must have a vendor identification number. As part of the Statewide Financial System (SFS), the Office of the State Comptroller’s Bureau of State Expenditures has created a centralized vendor repository called the New York State Vendor File. In the event of an award and in order to initiate a contract with the New York State Department of Health, vendors must be registered in the New York State Vendor File and have a valid New York State Vendor ID.

If already enrolled in the Vendor File, please include the Vendor Identification number on the application cover sheet. If not enrolled, to request assignment of a Vendor Identification number, please submit a New York State Office of the State Comptroller Substitute Form W-9, which can be found on-line at: http://www.osc.state.ny.us/vendor_management/issues_guidance.htm.

Additional information concerning the New York State Vendor File can be obtained on-line at: http://www.osc.state.ny.us/vendor_management/index.htm, by contacting the SFS Help Desk at 855-233-8363 or by emailing at helpdesk@sfs.ny.gov.

L. Vendor Responsibility Questionnaire

The New York State Department of Health recommends that vendors file the required Vendor Responsibility Questionnaire online via the New York State VendRep System. To enroll in and use the New York State VendRep System, see the VendRep System Instructions available at http://www.osc.state.ny.us/vendrep/vendor_index.htm or go directly to the VendRep system online at <https://portal.osc.state.ny.us>.

Vendors must provide their New York State Vendor Identification Number when enrolling. To request assignment of a Vendor ID or for VendRep System assistance, contact the Office of the State Comptroller's Help Desk at 866-370-4672 or 518-408-4672 or by email at ciohelpdesk@osc.state.ny.us.

Vendors opting to complete and submit a paper questionnaire can obtain the appropriate questionnaire from the VendRep website at: http://www.osc.state.ny.us/vendrep/forms_vendor.htm or may contact the Office of the State Comptroller's Help Desk for a copy of the paper form.

Applicants should complete and submit the Vendor Responsibility Attestation (RFA Attachment 2).

M. Vendor Prequalification for Not-for-Profits

All not-for-profit vendors subject to prequalification are required to prequalify prior to grant application and execution of contracts.

Pursuant to the New York State Division of Budget Bulletin H-1032, dated June 7, 2013, New York State has instituted key reform initiatives to the grant contract process which requires not-for-profits to register in the Grants Gateway and complete the Vendor Prequalification process in order for applications to be evaluated. Information on these initiatives can be found on the [Grants Reform Website](#).

Applications received from not-for-profit applicants that have not Registered and are not Prequalified in the Grants Gateway on the application due date listed on the cover of this RFA cannot be evaluated. Such applications will be disqualified from further consideration.

Below is a summary of the steps that must be completed to meet registration and prequalification requirements. The [Vendor Prequalification Manual](#) on the Grants Reform Website details the requirements and an [online tutorial](#) are available to walk users through the process.

1) Register for the Grants Gateway

- On the Grants Reform Website, download a copy of the [Registration Form for Administrator](#). A signed, notarized original form must be sent to the Division of Budget at the address provided in the instructions. You will be provided with a Username and Password allowing you to access the Grants Gateway.

If you have previously registered and do not know your Username, please email grantsreform@budget.ny.gov. If you do not know your Password, please click the [Forgot Password](#) link from the main log in page and follow the prompts.

2) Complete your Prequalification Application

- Log in to the [Grants Gateway](#). **If this is your first time logging in**, you will be prompted to change your password at the bottom of your Profile page. Enter a new password and click SAVE.
- Click the *Organization(s)* link at the top of the page and complete the required fields including selecting the State agency you have the most grants with. This page should be completed in its entirety before you SAVE. A *Document Vault* link will become available near the top of the page. Click this link to access the main Document Vault page.
- Answer the questions in the *Required Forms* and upload *Required Documents*. This constitutes your Prequalification Application. Optional Documents are not required unless specified in this Request for Application.
- Specific questions about the prequalification process should be referred to your agency representative or to the Grants Reform Team at grantsreform@budget.ny.gov.

3) Submit Your Prequalification Application

- After completing your Prequalification Application, click the **Submit Document Vault** Link located below the Required Documents section to submit your Prequalification Application for State agency review. Once submitted the status of the Document Vault will change to *In Review*.
- If your Prequalification reviewer has questions or requests changes you will receive email notification from the Gateway system.
- Once your Prequalification Application has been approved, you will receive a Gateway notification that you are now prequalified to do business with New York State.

Vendors are strongly encouraged to begin the process as soon as possible in order to participate in this opportunity.

N. General Specifications

1. By submitting the "Application Form" each applicant attests to its express authority to sign on behalf of the applicant.
2. Contractors will possess, at no cost to the State, all qualifications, licenses and permits to engage in the required business as may be required within the jurisdiction where the work specified is to be performed. Workers to be employed in the performance of this contract will possess the qualifications, training, licenses and permits as may be required within such jurisdiction.
3. Submission of an application indicates the applicant's acceptance of all conditions and terms contained in this RFA, including the terms and conditions of the contract. Any exceptions allowed by the Department during the Question and Answer Phase (Section IV.B.) must be clearly noted in a cover letter attached to the application.
4. An applicant may be disqualified from receiving awards if such applicant or any subsidiary, affiliate, partner, officer, agent or principal thereof, or anyone in its employ, has previously failed to perform satisfactorily in connection with public bidding or contracts.

5. Provisions Upon Default

- a. The services to be performed by the Applicant shall be at all times subject to the direction and control of the Department as to all matters arising in connection with or relating to the contract resulting from this RFA.
- b. In the event that the Applicant, through any cause, fails to perform any of the terms, covenants or promises of any contract resulting from this RFA, the Department acting for and on behalf of the State, shall thereupon have the right to terminate the contract by giving notice in writing of the fact and date of such termination to the Applicant.
- c. If, in the judgment of the Department, the Applicant acts in such a way which is likely to or does impair or prejudice the interests of the State, the Department acting on behalf of the State, shall thereupon have the right to terminate any contract resulting from this RFA by giving notice in writing of the fact and date of such termination to the Contractor. In such case the Contractor shall receive equitable compensation for such services as shall, in the judgment of the State Comptroller, have been satisfactorily performed by the Contractor up to the date of the termination of this agreement, which such compensation shall not exceed the total cost incurred for the work which the Contractor was engaged in at the time of such termination, subject to audit by the State Comptroller.

V. Application Review and Award Process

A. Application Acceptance

Applications will first be examined against mandatory Pass/Fail requirements by NYSTEM administrators (**see RFA Attachment 1**). Applications that do not meet the mandatory requirements will not be considered for review, and the applicant organization and PD will be notified.

B. Review and Scoring

The Department contracts with an independent peer review organization to develop and coordinate the review and scoring of applications. Each eligible application will be evaluated by an Independent Peer Review Panel (the Review Panel) assigned by the Peer Review Contractor. The Review Panel members will be selected from among non-New York State experts in the fields appropriate to the nature of the applications received. NYSTEM does not convene pre-established peer review panels. Instead, each panel is formed based upon the expertise needed to evaluate the merit of actual applications submitted in response to each RFA.

Applications will be reviewed based on the criteria specified in Section V.D. The Review Panel will use an established combination of processes to evaluate each application: pre-meeting review and adjectival scoring; on-line conferral among assigned reviewers; panel meeting discussion; and numerical scoring. Applications will receive scores from each participating panel member for each evaluation criterion using an integer scale of 1 (highest merit) to 9 (lowest merit). The numerical score given each criterion will be multiplied by that criterion's weight. Each panel member's weighted scores for each criterion will be added together to give their individual total score. Review Panel members' individual total scores will be added together and divided by the number of Review Panel members who scored the application to give an overall panel score for the application. The numerical scores correspond to adjectival scores, as follows:

Numerical Score	Adjectival Score
1	Exceptional
2	Outstanding
3	Excellent
4	Very Good
5	Good
6	Satisfactory
7	Fair
8	Marginal
9	Poor

The Review Panel will identify potential overlap with other resources. Additionally, the Review Panel will comment on the application with regard to the Contract Policy Statements and Conditions (Sample Master Grant Contract Attachment A-1 Part B). The Review Panel may recommend administrative review and resolution prior to contract execution. In addition, award recommendations made by the ESSCB Funding Committee may be contingent upon the applicant's acceptance of required revisions.

The primary reviewer will prepare a written overall evaluation of each assigned application that is discussed by the Review Panel.

C. Application Penalties and Summary Statements

The Peer Review Contractor will assess a penalty of 0.1 point for any application that scores between 1.0 and 3.9 and deviates from the instructions (**see Checklist, RFA Attachment 1**).

The Peer Review Contractor will calculate final scores and compile a Summary Statement for each application for NYSTEM. The Summary Statements will document the merit evaluation and serve as the primary basis for the panel recommendation for the applications.

D. Review Criteria

Six evaluation criteria will be considered by the Independent Scientific Merit Peer Review Panel:

Training Program (30%)

- Do the objectives, design and direction of the proposed program ensure effective training and professional development in stem cell research and related activities?
- Is the proposed program of training likely to ensure that trainees will be prepared for successful and productive stem cell-related scientific careers?

E. Empire State Stem Cell Board Funding Committee Review

The ESSCB Funding Committee will consider applications that receive a final score (after penalties are assessed) of 1.0 through 3.9. The ESSCB Funding Committee will not consider applications that receive a final score of 4.0 to 9.

The ESSCB Funding Committee will discuss the application strengths and weaknesses, administrative and budget recommendations. When making funding recommendations, the ESSCB Funding Committee will consider responsiveness to the mission of the ESSCB, responsiveness to the RFA, programmatic balance, availability of funds, and compliance with Public Health Law Article 2, Title 5-A, §265. The ESSCB Funding Committee is not obligated to recommend funding for any application. Scoring ties will be resolved on the basis of the above and with consideration of the score for 'Training Program' and among those applications involved in the tie.

The ESSCB Funding Committee will vote on each application that scores 3.9 or better until available funds are exhausted and in compliance with ESSCB bylaws as well as applicable laws and regulations. If an application for which there are available funds is not recommended for funding, the ESSCB Funding Committee will fully justify in writing why the application was not approved. The ESSCB Funding Committee will make recommendations for funding to the Commissioner of Health.

F. Award Decisions and Pre-Funding Requirements

Grant award contracts are entered into between New York State applicant organizations and the New York State Department of Health. Funding is contingent upon full execution of a contract between the applicant organization and the New York State Department of Health and approval by the Commissioner of Health, State Attorney General and State Comptroller.

Following the Commissioner's approval of awards, PDs and their applicant organizations will receive formal notification in writing.

Prior to contract execution, program administrators will require resolution/submission/confirmation of the following items, as relevant to each application:

- Revisions to Workplan, project duration or budget,
- Funding overlap,
- Areas of possible concern with regard to Contract Policy Statements and Conditions (Attachment A-1 Part B),
- Approved Facilities and Administrative Cost Rate.

Once an award has been made, applicants may request a debriefing of their application. Please note the debriefing will be limited only to the strengths and weaknesses of the subject application and will not

include any discussion of other applications. Requests must be received no later than ten (10) business days from date of award or non-award announcement.

In the event unsuccessful applicants wish to protest the award resulting from this RFA, applicants should follow the protest procedures established by the Office of the State Comptroller (OSC). These procedures can be found on the OSC website at <http://www.osc.state.ny.us/agencies/guide/MyWebHelp>.

G. Award Announcements

NYSTEM makes public in press releases and annual reports to the Governor and Legislature, the project title, the PD(s), the name of the organization, total projects costs and duration. The project abstract and progress report abstracts may also be edited and made public.

Form 10 TABULAR INFORMATION IN SUPPORT OF THE WORKPLAN

Application Completion Instructions

Each content section described below should be provided in the application.

ALL APPLICATIONS SHOULD USE THE FORMS (see Attachment 1 – Forms 1-10 and Form 1-S) AND FORMATS PRESCRIBED IN THIS ATTACHMENT 1. APPLICATIONS THAT DEVIATE FROM SPECIFIC ELEMENTS OF THESE INSTRUCTIONS OR THOSE FOUND ON THE FORMS WILL BE ASSESSED A PENALTY AS SPECIFIED IN Attachment 1, Application Checklist (above – Page 16).

It is the applicant's responsibility to ensure that all materials to be included in the application have been properly prepared and submitted. **File sizes cannot exceed 10MB each.** Applicants are strongly encouraged to seek appropriate technical support in the creation of digital files and to review the digital files prior to submission. Some materials may require scanning and insertion into the file. Discretion should be exercised in the resolution of figures and scanned materials. Excess resolution will increase the size of the file without any appreciable increase in viewing quality. Tips for managing graphics and file sizes are available at http://stemcell.ny.gov/research_support.html. Applicants should also be aware that while color figures may be included, applications may be printed in black and white. Applicants may wish to annotate the figure legend directing the reader to the digital file if color is an important aspect of the figure.

Forms are pre-set with acceptable fonts and margins. Applications should be single-spaced and typed using the font previously set within each form. Smaller font sizes are acceptable for use in tables and figure legends. Each page of each file should be numbered consecutively. Figures and illustrations referenced in the Workplan are included in the page limits. Appendices may not be used to circumvent page limitations.

Applications must be submitted in digital format on a single CD or DVD. An exact paper copy should also be submitted; it will be used only if the CD or DVD is damaged. If a digital copy of the application is not submitted on CD or DVD, the application will fail administrative review and will not be sent to peer review. Also, if the digital copy is damaged and a paper copy has not been submitted, the application will fail administrative review and will not be sent to peer review.

The CD or DVD should be clearly labeled with the applicant's name. It should contain the following items:

- Signed and dated Form 1 and all Forms 1-S (where applicable) in a *single* Portable Document Format (PDF) file
NOTE: Form 1-S may be omitted if there are no sub-applicants. No other forms may be omitted from the application.
- Forms 1-S (where applicable; unsigned) as separate Microsoft Word Document (DOC or DOCX) files
- Forms 1-4 (unsigned) in a *single* DOC or DOCX file
- Forms 1-4 (signed) in a *single* PDF file
- Form 5's as separate Microsoft Excel (XLS or XLSX) files – one workbook file for the applicant organization and one workbook file for each sub-applicant organization

- All Form 5's combined in a *single* PDF file – include applicant and all sub-applicant budgets and justifications
- Forms 6-10, tabular data and all appendix material in a *single* PDF file, containing at least the following:
 - Biographical Sketch – Form 6 – one for the PD and each Co-PD
 - Facilities and Resources – Form 7 – one for the applicant organization and one for each sub-applicant organization
 - Other Support – Form 8 – for the PD and each Co-PD
 - Introduction – Form 9 limited to 1 page (marked “N/A” if application is not a Resubmission)
 - Workplan – Form 10
 - Workplan Narrative – Form 10 – limited to 10 pages
 - Tables Supporting Workplan – Form 10.

Information submitted to NYSTEM is subject to the Freedom of Information Law (FOIL) (New York State Public Officers' Law, Article 6, Sections 84 to 90). To the extent permitted by law, an application will not be disclosed, except for purposes of evaluation, prior to approval by the Comptroller of the resulting contract. All material submitted becomes the property of the Department and may be returned at the Department's discretion. Submitted applications may be reviewed and evaluated by any person designated by the Department, other than one associated with a competing applicant. Any information supplied by an applicant, which is believed to be exempt from disclosure under FOIL, must be clearly marked and identified as such upon submission by the applicant. Marking the information as “confidential” or “proprietary” on its face or in the document header or footer shall not be sufficient without specific explanation of the basis for the claim of exemption from disclosure. Acceptance of the claimed materials by the Department does not constitute a determination on the exemption request. A determination of whether such information is exempt from FOIL will be made at the time of any request for disclosure under FOIL in accordance with statutory procedure.

List (spell out) the full name, title and organizational affiliation of the PD, Co-PD(s), all staff, collaborators, consultants and contributors (both paid and unpaid) associated with this project. Do not include unnamed or "to be determined" staff positions. For each individual listed, select

the most applicable role from the dropdown box. This list is used to determine possible conflicts of interest at various stages of the review and award process.

Acronyms and Abbreviations Used in Application – Form 3

Provide a list of all acronyms and abbreviations used in the application. Also include the full text/definition/description as used in the application. This will allow the review panel to fully comprehend the proposed project. Common acronyms such as hESC (human embryonic stem cells) need not be identified.

Lay Abstract – Form 4

Provide a summary of the proposed training program in non-technical terms; limit to 300 words. This information will be excerpted and edited for use in various public documents. Do not include confidential information. Specifically, provide a summary of the training program (number and training level of students, goals for the program, selection processes for students and mentors, etc.). Describe the impact of the proposed training program on the ability of the institution to attract students and fellows into the field of stem cell research.

Budget and Justification – Form 5

Form 5 is fillable as a Microsoft Excel workbook. Complete a Form 5 workbook for the applicant organization. In addition, complete a separate Form 5 workbook for each sub-applicant organization (e.g., an application with two sub-applicants will submit a total of three Form 5 files). The applicant budget should be submitted as one Excel file named with the application number and institution name. Sub applicant budgets should each be submitted as one Excel file named with the application number and the sub-applicant institution name (Ex. “N14I-999 Harvard budget”, “N14I-999 sub-Boston College budget”). All budget forms should also be submitted as a single PDF file. **Please note that it is the responsibility of the applicant to expand the cells as necessary for the complete justification to be legible to peer reviewers after preparing the PDF file for the budgets.**

The workbook is formatted with the proper formulas and will print all 25 pages of budget forms (five years) from one spreadsheet (tab labeled ‘BUDGET’). The SUMMARY pages of each budget year (pages 1, 6, 11, 16, 21) will auto-populate when the budget detail pages are completed. As the BUDGET tab is completed, budget line items and dollar amounts will auto-populate on the JUSTIFICATION tab. A complete justification should be entered for each budget line.

Request funds appropriate for cost-effective performance of the proposed project. Budgets must be developed and managed in accordance with appropriate accounting standards for the organization including, but not limited to, applicable Circulars from the federal Office of Management and Budget (OMB) (see NYS Master Grant Contract, Appendix A-1). Record the amount requested for each category, subtotal and total for each year or portion thereof.

Care should be taken to record the true budgetary needs of the application. Proposed budgets are expected to incorporate cost of living increases and other reasonably-anticipated

adjustments that may be necessary throughout the contract term. **Note: Requests for budget modifications** (to move funds between Personal Service and Non-Personal Service budget categories) **and no cost extensions** (to extend the termination date of the contract) **will not be considered** for these contracts. Further, unused funds cannot later be used to support additional training slots or portions thereof. Thus, it is of critical importance that the application budget is prepared accurately and the scope of work can clearly be accomplished within the stated contract term.

No funds shall be directly or indirectly utilized for research involving human reproductive cloning. Patient care and equipment are not allowable expenses. Funds awarded by this program may not be used to supplant or duplicate other existing support for the same work (also see NYS Master Grant Contract, Standard Terms and Conditions, Paragraph III.C., Claims for Reimbursement regarding duplicate reimbursement and replacement funds). Ineligible budget items will be removed from the budget prior to contracting; the budget amount requested will be reduced to reflect the removal of the ineligible items.

Allowable Expenses of the Applicant and Sub-applicants

1. Personal Services

Salaries are to be paid according to established institutional policies and proportional to the percent of expended professional effort. Fringe benefits may be requested in accordance with institutional guidelines for each position, provided such benefits are applied consistently by the applicant institution as a direct cost to all sponsors. Maximum salary is limited to \$199,700 in each budget year and is not adjustable as the federal salary cap changes. Salary support may not be requested for the mentor(s) although a designated percentage of effort for the mentor(s) is appropriate. The percentage of effort for personnel other than the trainees is not prescribed; it should be dependent upon the nature of the role of each individual at various time points during the project. Provide the information requested for all staff positions assigned to the project, regardless of whether financial support is requested. Insert additional lines as necessary.

The total yearly remuneration paid to trainees throughout the course of this award will, at a minimum, adhere to those established by the National Institutes of Health (NIH). Stipends paid from this award for predoctoral trainees will not exceed a cost of \$23,000 per training year. Stipends paid from this award for postdoctoral trainees will not exceed a cost of \$52,000 per training year. Therefore, if the NIH stipend levels are increased or institutional policies require a higher stipend, the contractor will be required to pay the difference from other eligible sources of funds. Record the stipend for each trainee slot on the Personal Services Detail page.

Trainees enrolled by the contractor must be conducting relevant projects in stem cell-related research laboratories at the applicant or sub-applicant institution. A fulltime 12-month commitment to the training experience is required of the trainees, equivalent to one FTE for the duration of the training experience. Full-time is generally defined as devoting at least 40 hours per week to research training activities or as specified by the applicant organization's policies. It is expected that trainees may rotate off the program to accept individual fellowships and other opportunities and be replaced by another trainee.

2. Non-Personal Services

Eligible non-personal service expenditures are limited to administration of the training program, training related expenses, trainee tuition and fees, and Facilities and Administrative Costs as described below.

For each trainee, annual expenses may not exceed the following:

MAXIMUM ANNUAL BUDGET PER TRAINEE SLOT*		
	<u>Predoctoral Trainee</u>	<u>Postdoctoral Trainee</u>
Trainee Stipend	\$ 23,000.00	\$ 52,000.00
Training Related Expenses	\$ 4,200.00	\$ 7,850.00
Tuition and Fees	\$ 16,000.00	\$ 4,500.00
Total Direct Costs	\$ 43,200.00	\$ 64,350.00
Facilities and Administration (8% of Modified Total Direct Costs)	\$ 2,176.00	\$ 4,788.00
Total	\$ 45,376.00	\$ 69,138.00

* These expenses may be budgeted at either the applicant institution, the sub-applicant institution, or split between the two as appropriate.

Tuition costs may be requested up to a maximum of 60 percent of tuition costs and in amounts not to exceed \$16,000 per year for predoctoral trainees and \$4,500 per year for postdoctoral trainees.

Training Related Expenses may include:

- Travel to scientific meetings when necessary for the individual's training and when such costs are incurred within the period of training;
- Health Insurance for the trainee (individual or family) as applicable and consistent with institutional policy for trainees; and
- Speaker fees.

Funds may not be re-budgeted within the categories listed in the table above.

3. Proposed Subcontracts (Sub-applicants)

Allowable expenses for sub-applicants will be consistent with those established herein for the applicant. Sub-applicant amounts will be carried forward from sub-applicant budget forms to Contractual Services of the applicant budget, Form 5. Such amount will include sub-applicant F&A costs. Note that any expenses budgeted for the sub-applicant will reduce the allowable expenses for the applicant organization.

4. Facilities and Administrative Costs

F&A support is limited to a maximum of eight percent of modified total direct costs. Modified total direct costs consist of all salaries and wages, fringe benefits, materials and supplies, services, travel and subgrants and subcontracts up to the first \$25,000 of each subgrant or subcontract (regardless of the period covered by the subgrant or subcontract). Tuition and fees, equipment, as well as the portion of each subgrant and subcontract in excess of \$25,000 shall be excluded from modified total direct costs.

If an award is made, F&A costs will be re-calculated from recommended and approved budget amounts. F&A costs will be calculated as the lower of the RFA-specified percentage of modified total direct costs or the amount recovered using the institution's current DHHS F&A rate. A copy of the DHHS F&A rate agreement should be included in the application appendix. In the absence of a DHHS agreement, an equivalently documented rate for the institution may be used. Sub-applicant F&A costs are likewise limited, and included in the primary applicant's direct costs.

Justification

On the second sheet/tab of each Excel workbook, complete the justification for each annual budget. Provide sufficient detail to demonstrate that specific uses and amounts of funding have been carefully considered, are reasonable and are consistent with the approaches described in the Workplan for each budget year. Justify funding for each budget line for the applicant and each sub-applicant. Budget lines that are not well-justified may be decreased or disallowed during the peer review and award process.

Starting with personnel, **fully justify** amounts requested in each budget category and budget line. Regardless of whether financial support is requested, describe and substantiate the roles and essential contributions to the project of the PD and other staff involved in the project. In addition, provide a **detailed** justification for each 'Non Personal Service' (e.g., travel, supplies and other expenses).

Note that expenses specific to each trainee are limited as described in the RFA and are to be verifiable upon audit but do not need to be itemized here.

Biographical Sketch – Form 6

Provide biographical sketches for all key personnel. Start with the PD followed by Co-PD(s) then include other key personnel in alphabetical order using additional copies of Form 6.

NOTE: Mentor biosketches should use this format and be included as an appendix.

Complete the information requested on the form. **Do not exceed two pages for each.** In Section A, list in chronological order all previous positions, concluding with the current position. List any honors. Include present membership on any Federal Government public advisory committee(s). In Section B, enter the total number of peer reviewed publications in the individual's history in the section heading and list relevant publications in chronological order. Do not include manuscripts submitted or in preparation. For publicly available citations, URLs or PubMed Central submission identification numbers may accompany the full reference.

Facilities and Resources – Form 7

Describe the facilities available for performance of the proposed project at the applicant organization. Include headings for: Laboratory, Clinical, Animal, Computer, Office, Other (such as machine shop and electronics shop), and Major Equipment as appropriate. Specify the extent to which such services will be available to the project. Indicate the performance site(s) and describe pertinent site capabilities, relative proximity and extent of availability to the project. Also indicate organizational commitment, including any additional facilities or equipment to be provided in support of the project or available for use at no cost to the project. **Complete an additional form for each proposed sub-applicant organization.**

Other Support – Form 8

Provide the information requested for the PD and Co-PD(s) **and all other key personnel, mentors and faculty**, on all existing and pending research support. Also provide the information requested regarding all existing and pending training support available to the participating faculty members, mentors, department(s) or programs(s). Add rows as necessary. Applications submitted to NYSTEM should not duplicate other funded projects in whole or part. The PD and the contracting organization are responsible for identifying and notifying NYSTEM administration staff of any changes in funding overlap information from time of application submission throughout the contract term.

Introduction – Form 9

If the application is **not** a “Resubmission” this form should be included in the application and marked “Not Applicable (N/A)”. A “Resubmission” application includes research that was reviewed by NYSTEM during a previous cycle, but was not funded and is being resubmitted for new consideration. Resubmission applications should be responsive to the funding mechanism as well as reviewers’ comments to the previous application. The Resubmission application should include significant changes to the original application and can only be resubmitted once the summary statement is available to the applicant.

If the application is a “Resubmission,” in no more than one page, summarize the substantial additions, deletions and changes that have been made to the original application. Include responses to the issues and criticism raised in the original review. The Workplan should incorporate any relevant work done since the original application. All changes in the Workplan from the original submission should be indicated by bracketing, indenting or change in typography. If the changes are so extensive that essentially all of the text would be marked, explain this in the Introduction. **Reviewers’ comments from the original application will be provided by NYSTEM to the reviewers of the revised application.**

Workplan – Form 10

Enter the requested information at the top of the Summary Page. Paste the text from the Lay Abstract (Form 4) into the box on the Summary Page.

On the Detail Page, list the over-arching goal(s) of the training program in the column labeled Objective (e.g., to train “x” predoctoral fellows). List each Task required to meet the objective(s) in the column labeled Tasks (e.g., recruit for Year #1, select trainees, assign mentors, develop curriculum, submit progress report, etc.). Add rows as necessary. Within each Task row, briefly summarize the rationale. In the Performance Measures column, identify the expected outcome(s) and expected date of completion for each Task. Do not type any information in the column labeled Budget Category/Deliverable.

Include the Workplan narrative below the table. Do not exceed 10 pages. Provide sufficient detail to allow monitoring of progress toward program goals. The Workplan should present information in sufficient detail to convey clearly and concisely to reviewers that:

- The proposed program is well-defined, appropriately led and supported; and
- the essential components of the plan will provide a fertile training ground for the development of the highest caliber of stem cell researchers, and will include didactic and lab-based experience as well as training in responsible conduct of research, laboratory and project management and grant writing.

The Work Plan for the training program should include a detailed discussion of the following:

a) Training Program Description/Plan

- Program goals and objectives
- Program policies and administration, including financial support and use of funds

- Access to shared facilities and equipment, scientific journals, computational and statistical support, etc.

e) Past Training Record

- Of the program and/or institution
- Of the PD and designated faculty preceptors/mentors and their trainees in seeking further career development and in establishing productive scientific careers. Evidence can include successful completion of programs and further career advancement of former trainees such as receipt of fellowships, career awards, further training appointments and similar accomplishments. Evidence of a productive scientific career can include a record of successful competition for research grants, receipt of special honors or awards, a record of publications, receipt of patents, promotion to scientific positions, and any other accepted measure of success.

WITNESSETH:

WHEREAS, the State has the authority to regulate and provide funding for the establishment and operation of program services, design or the execution and performance of construction projects, as applicable and desires to contract with skilled parties possessing the necessary resources to provide such services or work, as applicable; and

WHEREAS, the Contractor is ready, willing and able to provide such program services or the execution and performance of construction projects and possesses or can make available all necessary qualified personnel, licenses, facilities and expertise to perform or have performed the services or work, as applicable, required pursuant to the terms of the Master Contract;

NOW THEREFORE, in consideration of the promises, responsibilities, and covenants herein, the State and the Contractor agree as follows:

STANDARD TERMS AND CONDITIONS

I. GENERAL PROVISIONS

A. Executory Clause: In accordance with Section 41 of the State Finance Law, the State shall have no liability under the Master Contract to the Contractor, or to anyone else, beyond funds appropriated and available for the Master Contract.

B. Required Approvals: In accordance with Section 112 of the State Finance Law (or, if the Master Contract is with the State University of New York (SUNY) or City University of New York (CUNY), Section 355 or Section 6218 of the Education Law), if the Master Contract exceeds \$50,000 (or \$85,000 for contracts let by the Office of General Services, or the minimum thresholds agreed to by the Office of the State Comptroller (OSC) for certain SUNY and CUNY contracts), or if this is an amendment for any amount to a contract which, as so amended, exceeds said statutory amount including, but not limited to, changes in amount, consideration, scope or contract term identified on the Face Page (Contract Term), it shall not be valid, effective or binding upon the State until it has been approved by, and filed with, the New York Attorney General Contract Approval Unit (AG) and OSC. If, by the Master Contract, the State agrees to give something other than money when the value or reasonably estimated value of such consideration exceeds \$10,000, it shall not be valid, effective or binding upon the State until it has been approved by, and filed with, the AG and OSC.

Budget Changes: An amendment that would result in a transfer of funds among program activities or budget cost categories that does not affect the amount, consideration, scope or other terms of such contract may be subject to the approval of the AG and OSC where the amount of such modification is, as a portion of the total value of the contract, equal to or greater than ten percent for contracts of less than five million dollars, or five percent for contracts of more than

Contract Number: # _____

five million dollars; and, in addition, such amendment may be subject to prior approval by the applicable State Agency as detailed in Attachment D (Payment and Reporting Schedule).

C. Order of Precedence:

In the event of a conflict among (i) the terms of the Master Contract (including any and all attachments and amendments) or (ii) between the terms of the Master Contract and the original request for proposal, the program application or other attachment that was completed and executed by the Contractor in connection with the Master Contract, the order of precedence is as follows:

1. Standard Terms and Conditions
2. Modifications to the Face Page
3. Modifications to Attachment A-2¹, Attachment B, Attachment C and Attachment D
4. The Face Page
5. Attachment A-2², Attachment B, Attachment C and Attachment D
6. Modification to Attachment A-1
7. Attachment A-1
8. Other attachments, including, but not limited to, the request for proposal or program application

D. Funding: Funding for the term of the Master Contract shall not exceed the amount specified as “Contract Funding Amount” on the Face Page or as subsequently revised to reflect an approved renewal or cost amendment. Funding for the initial and subsequent periods of the Master Contract shall not exceed the applicable amounts specified in the applicable Attachment B form (Budget).

E. Contract Performance: The Contractor shall perform all services or work, as applicable, and comply with all provisions of the Master Contract to the satisfaction of the State. The Contractor shall provide services or work, as applicable, and meet the program objectives summarized in Attachment C (Work Plan) in accordance with the provisions of the Master Contract, relevant laws, rules and regulations, administrative, program and fiscal guidelines, and where applicable, operating certificate for facilities or licenses for an activity or program.

F. Modifications: To modify the Attachments or Face Page, the parties mutually agree to record, in writing, the terms of such modification and to revise or complete the Face Page and all the appropriate attachments in conjunction therewith. In addition, to the extent that such modification meets the criteria set forth in Section I.B of the Master Contract, it shall be subject to the approval of

¹ To the extent that the modifications to Attachment A-2 are required by federal requirements and conflict with other provisions of the Master Contract, the modifications to Attachment A-2 shall supersede all other provisions of this Master Contract. See Section I(V).

² To the extent that the terms of Attachment A-2 are required by federal requirements and conflict with other provisions of the Master Contract, the federal requirements of Attachment A-2 shall supersede all other provisions of this Master Contract. See Section I(V).

the AG and OSC before it shall become valid, effective and binding upon the State. Modifications that are not subject to the AG and OSC approval shall be processed in accordance with the guidelines stated in the Master Contract.

G. Governing Law: The Master Contract shall be governed by the laws of the State of New York except where the Federal Supremacy Clause requires otherwise.

H. Severability: Any provision of the Master Contract that is held to be invalid, illegal or unenforceable in any respect by a court of competent jurisdiction, shall be ineffective only to the extent of such invalidity, illegality or unenforceability, without affecting in any way the remaining provisions hereof; provided, however, that the parties to the Master Contract shall attempt in good faith to reform the Master Contract in a manner consistent with the intent of any such ineffective provision for the purpose of carrying out such intent. If any provision is held void, invalid or unenforceable with respect to particular circumstances, it shall nevertheless remain in full force and effect in all other circumstances.

I. Interpretation: The headings in the Master Contract are inserted for convenience and reference only and do not modify or restrict any of the provisions herein. All personal pronouns used herein shall be considered to be gender neutral. The Master Contract has been made under the laws of the State of New York, and the venue for resolving any disputes hereunder shall be in a court of competent jurisdiction of the State of New York.

1. All notices, except for notices of termination, shall be in writing and shall be transmitted either:
 - a) by certified or registered United States mail, return receipt requested;
 - b) by facsimile transmission;

 - d) by expedited delivery service; or
 - e) by e-mail.
2. Notices to the State shall be addressed to the Program Office designated in Attachment A-1 (Program Specific Terms and Conditions).
3. Notices to the Contractor shall be addressed to the Contractor's designee as designated in Attachment A-1 (Program Specific Terms and Conditions).
4. Any such notice shall be deemed to have been given either at the time of personal delivery or, in the case of expedited delivery service or certified or registered United States mail, as of the date of first attempted delivery at the address and in the manner provided herein, or in the case of facsimile transmission or e-mail, upon receipt.
5. The parties may, from time to time, specify any new or different e-mail address, facsimile

number or address in the United States as their address for purpose of receiving notice under the Master Contract by giving fifteen (15) calendar days prior written notice to the other party sent in accordance herewith. The parties agree to mutually designate individuals as their respective representatives for the purposes of receiving notices under the Master Contract. Additional individuals may be designated in writing by the parties for purposes of implementation, administration, billing and resolving issues and/or disputes.

K. Service of Process: In addition to the methods of service allowed by the State Civil Practice Law & Rules (CPLR), Contractor hereby consents to service of process upon it by registered or certified mail, return receipt requested. Service hereunder shall be complete upon Contractor's actual receipt of process or upon the State's receipt of the return thereof by the United States Postal Service as refused or undeliverable. Contractor must promptly notify the State, in writing, of each and every change of address to which service of process can be made. Service by the State to the last known address shall be sufficient. The Contractor shall have thirty (30) calendar days after service hereunder is complete in which to respond.

L. Set-Off Rights: The State shall have all of its common law, equitable, and statutory rights of set-off. These rights shall include, but not be limited to, the State's option to withhold, for the purposes of set-off, any moneys due to the Contractor under the Master Contract up to any amounts due and owing to the State with regard to the Master Contract, any other contract with any State department or agency, including any contract for a term commencing prior to the term of the Master Contract, plus any amounts due and owing to the State for any other reason including, without limitation, tax delinquencies, fee delinquencies, or monetary penalties relative thereto. The State shall exercise its set-off rights in accordance with normal State practices including, in cases of set-off pursuant to an audit, the finalization of such audit by the State Agency, its representatives, or OSC.

Indemnification: The Contractor shall be solely responsible and answerable in damages for any and all accidents and/or injuries to persons (including death) or property arising out of or related to the services to be rendered by the Contractor or its subcontractors pursuant to this Master Contract. The Contractor shall indemnify and hold harmless the State and its officers and employees from claims, suits, actions, damages and cost of every nature arising out of the provision of services pursuant to the Master Contract.

N. Non-Assignment Clause: In accordance with Section 138 of the State Finance Law, the Master Contract may not be assigned by the Contractor or its right, title or interest therein assigned, transferred, conveyed, sublet, or otherwise disposed of without the State's previous written consent, and attempts to do so shall be considered to be null and void. Notwithstanding the foregoing, such prior written consent of an assignment of a contract, let pursuant to Article XI of the State Finance Law, may be waived at the discretion of the State Agency and with the concurrence of OSC, where the original contract was subject to OSC's approval, where the assignment is due to a reorganization, merger, or consolidation of the Contractor's business entity or enterprise. The State retains its right to approve an assignment and to require that the merged contractor demonstrate its responsibility to do business with the State. The Contractor may, however, assign its right to receive payments without the State's prior written consent unless the Master Contract concerns Certificates of Participation pursuant to Article 5-A of the State Finance Law.

O. Legal Action: No litigation or regulatory action shall be brought against the State of New York, the State Agency, or against any county or other local government entity with funds provided under

the Master Contract. The term “litigation” shall include commencing or threatening to commence a lawsuit, joining or threatening to join as a party to ongoing litigation, or requesting any relief from any of the State of New York, the State Agency, or any county, or other local government entity. The term “regulatory action” shall include commencing or threatening to commence a regulatory proceeding, or requesting any regulatory relief from any of the State of New York, the State Agency, or any county, or other local government entity.

Certification Regarding Environmental Tobacco Smoke: Public Law 103-227, also known as the Pro-Children Act of 1994 (Act), requires that smoking not be permitted in any portion of any indoor facility owned or leased or contracted for by an entity and used routinely or regularly for the provision of health, day care, early childhood development services, education or library services to children under the age of 18, if the services are funded by federal programs either directly or through State or local governments, by federal grant, contract, loan, or loan guarantee. The law also applies to children's services that are provided in indoor facilities that are constructed, operated, or maintained with such federal funds. The law does not apply to children's services provided in private residences; portions of facilities used for inpatient drug or alcohol treatment; service providers whose sole source of applicable federal funds is Medicare or Medicaid; or facilities where WIC coupons are redeemed. Failure to comply with the provisions of the law may result in the imposition of a monetary penalty of up to \$1000 for each violation and/or the imposition of an administrative compliance order on the responsible entity.

By signing this AGREEMENT, the CONTRACTOR certifies that it will comply with the requirements of the Act and will not allow smoking within any portion of any indoor facility used for the provision of services for children as defined by the Act. The CONTRACTOR agrees that it will require that the language of this certification be included in any subawards which contain provisions for children's services and that all subrecipients shall certify accordingly.

Part B. Program Specific Clauses

Additional Department of Health program specific clauses follow in Attachment A-1 Part B.

ATTACHMENT A-1
AGENCY AND PROGRAM SPECIFIC CLAUSES
Part B. Program Specific Clauses

New York State Department of Health

Department of Health Program Name: New York State Stem Cell Program (NYSTEM)

Initiative Name: Empire State Institutional Training Programs in Stem Cell Research for Predoctoral and Postdoctoral Fellows

Part B. Program Specific Clauses

A. Research Integrity and Responsible Conduct of Research

In accepting an award from the New York State Department of Health for support from the Empire State Stem Cell Fund, the contractor shall ensure that each project investigator agrees to conform strictly to the codes of practice, regulations, policies and laws governing ethical conduct of scientific research, including but not limited to CFR 42 Part 93 and CFR 45 Part 94. The contractor and the Principal Investigator (PI) shall be responsible for any violation of these standards. If experimental procedures conducted pursuant to this project are performed in another state or country, either directly by the PI and any co-investigators, or in collaboration with other persons, the PI and contractor shall ensure that such research complies with New York State laws and regulations that would be applicable to such research if performed in New York State. The contractor will inform NYSTEM program administrators of any actual or suspected instances of research misconduct by any project participant as soon as this information becomes known to the contractor. The contractor is fully responsible for investigation of such instances.

B. Human Subjects Research

Human subjects research is essential to the continued advancement of scientific knowledge concerning stem cell biology. In carrying out such research, the rights and welfare of all individual research participants are of critical importance. Furthermore, additional safeguards must protect especially vulnerable research subjects, including minors, mentally disabled adults who lack capacity to provide informed consent to research participation, and prisoners. Accordingly, no research study shall commence unless it has been approved by an Institutional Review Board (IRB) and a copy of the current approval has been submitted to NYSTEM. Further, the following requirements shall be satisfied:

- The research study will comply with 45 CFR Part 46 (unless exempt from the requirements of this Part) and, if applicable, 21 CFR Parts 50 and 56; 21 CFR 312; 21 CFR 361; and 21 CFR 812.
- The research study will comply with New York State Public Health Law (PHL) Article 24-A unless the research is subject to, and in compliance with, policies and regulations promulgated by any agency of the federal government for the protection of human subjects.

- The research study will comply with all other applicable federal and New York State laws, regulations and guidelines.
- If applicable, the contractor's IRB has received, reviewed, and accepted written approval from an authorized representative of each site where the study will take place.
- The IRB has determined that the investigator will immediately withdraw a subject from the research study if continued participation would be detrimental to the subject's well-being.
- The IRB will communicate to NYSTEM program administrators: (i) any unanticipated problems involving risks to subjects; (ii) any serious or continuing noncompliance with IRB policy or requirements; and (iii) any suspension or termination of IRB approval of the research study within 24 hours of such determination.

C. Animal Use

NYSTEM requires that all contractors that conduct research using animals supported by the Empire State Stem Cell Fund adhere to all federal, state and local laws pertaining to humane care and use of animals for research purposes. Accordingly, no research study shall commence unless it has been reviewed and approved by an Institutional Animal Care and Use Committee (IACUC) whose guidelines are in compliance with the U.S. Public Health Service's *Policy on Humane Care and Use of Laboratory Animals*, and *Guide for the Care and Use of Laboratory Animals*, as well as any other federal, state and local laws or regulations relating to animal care and use (e.g., the federal Animal Welfare Act, (7 USC 2131 *et seq.*) and its implementing regulations; and PHL Article 5, Title I, §§504 and 505-a) and a copy of the current approval has been submitted to NYSTEM.

D. Other Compliance Requirements

1. Human Tissue

NYSTEM will support research using human tissue and require that such research adhere to all federal, state and local laws and regulations pertaining to the use of such tissue, including, but not limited to, 42 USC §289g *et seq.*; NYS PHL Article 43, §§4301 to 4309; Article 43-B, §§4360 to 4366; and 10 NYCRR Part 52. Any facility collecting, processing, storing, or distributing human tissue, even if for research purposes only, must consult with the Department regarding the need for an appropriate New York State tissue bank license, and if informed a license is necessary, obtain such a license. Accordingly, no research study shall commence unless such license is current.

2. Analytical Testing of Human Specimens

Any facility performing analytical testing of specimens from tissue donors or donated tissues where donor-identified test results are produced, which does not already hold such a permit, must consult with the Department regarding the need for an appropriate New York State Clinical Laboratory Permit in compliance with PHL Article 5, Title V, §§570 to 581, or verify that the facility performing the testing holds the appropriate permit. Accordingly, no research study shall commence unless such permit is current.

3. Recombinant DNA

Any facility in possession of recombinant DNA or performing recombinant DNA activities must comply with relevant state law (New York State PHL Article 32-A), state regulations (10 NYCRR Part 61) and federal guidelines (see http://oba.od.nih.gov/rdna/nih_guidelines_oba.html). Accordingly, no research study shall commence unless it has been reviewed and approved by the appropriate institutional oversight committee and a copy of the current approval has been submitted to NYSTEM.

E. Human Stem Cell Research

1. **Scope.** Research using the following types of cells or tissues (“Human Stem Cell Research”) is subject to the requirements of this section:

- a. human embryonic stem cells;
- b. human totipotent or pluripotent cells;
- c. human neural progenitor stem cells; and
- d. human gonadal progenitor stem cells.

2. **National Academy of Science (NAS) and International Society of Stem Cell Research (ISSCR) Guidelines.** Human Stem Cell Research must comply with either NAS or ISSCR Guidelines to the extent applicable, and must also comply with any additional requirements of this Contract. In the event of any conflict, the requirements of this Contract shall take precedence.

3. **Stem Cell Research Oversight (SCRO) Committees.**

- a. Human Stem Cell Research must be approved by a Stem Cell Research Oversight (SCRO) Committee that meets the standards set forth in the NAS or ISSCR Guidelines and in paragraph (d) below. However, research permissible without SCRO Committee review under Category 1 of the ISSCR Guidelines or Section 1.3 (a) of the NAS Guidelines shall not require SCRO

review if notification is provided to the SCRO Committee.¹ Research using all the cell types set forth at Section E.1. b-d which meets the above-referenced ISSCR and NAS requirements for exemption of human embryonic stem cell research shall also be exempt from full review. Accordingly, no such research study shall commence unless it is demonstrated that research protocols have been reviewed and approved by the SCRO committee.

b. The SCRO Committee shall be responsible for the initial and ongoing review and oversight of the research at the institution where the research is being conducted.

c. The SCRO Committee shall ensure that research complies with either NAS or ISSCR Guidelines to the extent such Guidelines are applicable, and also complies with any additional requirements of this Appendix A-2. In the event of conflict, the requirements of Appendix A-2 shall take precedence.

d. The SCRO Committee shall create and follow written policies that include the following standards:

(i) Committee Membership: The membership of the SCRO Committee responsible for oversight for the contracting institution should have sufficient diversity among its members, including consideration of race, gender and background. Members should be sensitive to issues, such as community attitudes, in order to promote respect for the advice and counsel of the SCRO Committee. The SCRO Committee should be composed of qualified persons of both sexes. The members present at a meeting in which research funded under this contract is approved by the SCRO Committee must include at least one scientist with relevant expertise and one ethicist. The purpose of diverse membership on the SCRO Committee is to ensure that different perspectives are given a voice; the SCRO Committee should encourage different perspectives and voices in its discussion of protocols and in its minutes.

¹ Category 1 of the ISSCR Guidelines (Section 10.1) provides: "Experiments that are permissible after review under existing mandates and by existing local committees, and are determined to be exempt from full SCRO review. These will include experiments with pre-existing human embryonic stem cell lines that are confined to cell culture or involve routine and standard research practice, such as assays of teratoma formation in immune-deficient mice. We recommend that all institutions pursuing such research establish a mechanism capable of determining that a) these projects can be adequately reviewed by committees with jurisdiction over research on human tissues, animals, biosafety, radiation, etc. and b) that full review by a SCRO mechanism or body is not required. This mechanism should include a determination that the provenance of the human embryonic stem cell lines to be used has been scrutinized and deemed acceptable according to the principles outlined in this document, and that such research is in compliance with scientific, legal and ethical norms."

Section 1.3(a) of the NAS Guidelines provides: "Purely in vitro hES cell research that uses previously derived hES cell lines is permissible provided that the ESCRO committee or equivalent body designated by the investigator's institution (see Section 2.0) receives documentation of the provenance of the cell lines including (i) documentation of the use of an acceptable informed consent process that was approved by an Institutional Review Board (IRB) or foreign equivalent for their derivation (consistent with Section 3.6); and (ii) documentation of compliance with any additional required review by an Institutional Animal Care and Use Committee (IACUC), Institutional Biosafety Committee (IBC), or other institutionally mandated review."

- (ii.) Conflict of Interest Policies: The policies shall address conflicts of interest in a manner that is in alignment with other institutional conflict of interest policies, including, but not limited to, those governing the activities of the IRB. Such policies shall preclude a member from participating in the initial or continuing review of any project in which the member has a conflicting interest, except to provide information requested by the SCRO Committee.
- (iii.) Recordkeeping: The policies shall address recordkeeping requirements for the activities of the SCRO Committee and for research reviewed by the Committee that are in alignment with the policies developed by the institution's IRB in accordance with the requirements of 45 CFR Part 46 and guidance issued by the Office for Human Research Protections. In addition, the SCRO Committee shall develop and adhere to policies for maintaining records relating to the provenance of all stem cell lines used in funded research, consent of gamete donors, applicable ethical research standards, and reports of adverse or unexpected outcomes that pose a threat to the health or safety of any individual or raise new ethical issues. Records relating to the activities and review of the SCRO Committee and to the research conducted shall be retained for at least six years after completion of the research. All records shall be accessible for inspection and copying by authorized representatives of the Department at reasonable times and in a reasonable manner.

4. Consent to Donation of Biological Materials: Contractors must ensure that the procurement of biological materials used in research funded pursuant to this contract complies with the informed consent provisions in either the NAS or ISSCR Guidelines, modified as follows:

- a. *Obtaining Informed Consent*: Obtaining a person's fully informed, voluntary consent to a donation² must be accomplished through a dynamic process - *i.e.*, a dialogue that encourages the potential donor to ask questions, and prompts the potential donor to confirm his or her understanding of the information *being disclosed*. Accordingly, the informed consent process must adhere to the introductory paragraph of ISSCR Guideline 11.3³ and all of ISSCR 11.6.⁴

² References to "donors" or "donations" in this paragraph apply to donations of all biological materials – gametes, embryos and somatic cells – to stem cell research, except where otherwise noted.

³ ISSCR 11.3 - Informed consent: Researchers should exercise care in communicating the concept of "informed consent" to ensure that such consent has actually been obtained. The informed consent process should take into account language barriers and the educational level of the subjects themselves....

⁴ ISSCR 11.6 - Steps to enhance the procurement process: Attempts should be made to improve the informed consent process for human materials procurement. The informed consent document is but one aspect of this process. The purpose of the informed consent document is to record that all the ethically relevant information has been discussed. The informed consent document alone can never take the place of an interactive dialogue between research staff and providers of human materials. Researchers are thus encouraged to focus on enriching the

b. *Donation of Embryos in Excess of Clinical Need:* SCRO Committees shall review available documentation to ensure that there was a clear separation between the prospective donor(s)'s decision to create human embryos for reproductive purposes and the prospective donor(s)'s decision to donate the embryos for research purposes. Providing a general authorization for research donation when providing consent for reproductive treatment does not violate this provision, so long as specific consent to the research donation is obtained at the time of donation for research purposes.

c. *Re-consent:* Consent to donation shall be obtained at the time of the proposed transfer of the materials to the research team. With respect to obtaining re-consent to donation, SCRO Committees should apply the standards set forth in ISSCR Guideline 11.2,⁵ or may choose to use the stricter standards set forth in NAS Guideline 3.2.⁶

d. *No Affect on Medical Care:* Policies and procedures shall be in place and donors shall be informed that providing or declining to provide consent to donate biological materials to research will not affect the quality of care provided to the donor.

e. *Withdrawal of Consent:* Donors shall be informed that they retain the right to withdraw consent until the biological materials are actually used in research, in compliance with ISSCR Guideline 11.2,⁷ or until information

informed consent process itself, in addition to ensuring that the informed consent document includes all of the ethically relevant information. The informed consent process can be enhanced in the following ways:

- (i) Whenever possible, the person conducting the informed consent dialogue should have no vested interest in the research protocol. If members of the research team participate in the informed consent process, their role must be disclosed and care must be taken to ensure that information is provided in a transparent and accurate manner.
- (ii) Empirical research has shown that informed consent is most effective as a dynamic, interactive, and evolving process as opposed to a static, one-time disclosure event. Thus, researchers should provide ample opportunities for providers of human materials to discuss their involvement in the research protocol.
- (iii) Counseling services should be made available upon request to any providers of human materials prior to procurement.
- (iv) Procurement procedures should be revised in light of a) ongoing studies of the long-term risks associated with oocyte retrieval; and b) research on informed consent for all types of human biological materials procurement.
- (v) Researchers should consider on a regular basis, subject to annual review, the possible use of alternatives to hormonally induced oocytes procured solely for stem cell research, such as oocytes derived from pluripotent stem cells, in vitro maturation of oocytes from ovariectomy samples, and egg sharing programs offered through infertility clinics.

⁵ ISSCR 11.2 - Contemporaneous consent for donation: Consent for donation of materials for research should be obtained at the time of proposed transfer of materials to the research team. Only after a rigorous review by a SCRO mechanism or body can permission be granted to use materials for which prior consent exists but for which re-consent is prohibitively difficult. Consent must be obtained from all gamete donors for use of embryos in research.

⁶ NAS 3.2 - Consent for donation should be obtained from each donor at the time of donation. Even people who have given prior indication of their intent to donate to research any blastocysts that remain after clinical care should nonetheless give informed consent at the time of donation....

⁷ ISSCR 11.2 - Donors should be informed that they retain the right to withdraw consent until the materials are actually used in research.

which could link the identity of the donor(s) with the biological material is no longer retained (if applicable).

f. *Restrictions on the Initial Use of Donated Materials:* Donors must be informed of the intended use of their biological materials to the extent such use is known, and that cell lines derived from the biological materials may be disseminated to other institutions or researchers, and/or may be stored in a tissue bank. Donors should be encouraged to provide their biological materials free of restrictions on use, but must be offered the opportunity to impose restrictions on the types of research in which their materials initially might be used (e.g., somatic cell nuclear transfer) prior to, or in conjunction with, derivation of a cell line. Donors must be informed that adherence to restrictions beyond initial-use restrictions cannot be guaranteed, and that researchers may decline to use their biological materials or cell lines derived therefrom if such restrictions are imposed.

g. *Options for Disposition:* Donors shall be advised that there are alternatives to donating their gametes or embryos to research, and shall be provided with an explanation of what the alternatives are, including, but not limited to, all of the options available at the health care facility where the reproductive treatment was sought (e.g., embryo adoption, donation for fertility treatment, and discarding).

h. *Financial Disclosures:* Donors must be provided with information that complies with financial disclosure provisions of ISSCR Guidelines 11.3(a)(viii) and (ix).⁸

i. *Reimbursement for Costs of Research-Related Injuries:* Contractors shall be responsible for donors' medical costs, including the costs of treating injuries that arise directly and proximately from the act[s] of donating.

j. *Genetic and Medical Information:* Donors must be informed that any resulting cells or cell lines derived from their biological materials will carry some or all of the DNA of the donor, and therefore, could be partially or completely genetically matched to the donor. Donors must also be provided with the disclosures mandated by ISSCR Guideline 11.3(a) (vii).⁹

⁸ ISSCR 11.3(a) - The informed consent document and process should cover, at a minimum, the following statements:...

(viii) disclosure of the possibility that any resulting cells or cell lines may have commercial potential, and whether the donor will or will not receive financial benefits from any future commercial development.

(ix) disclosure of any present or potential future financial benefits to the investigator and the institution related to or arising from proposed research.

⁹ ISSCR 11.3(a) - The informed consent document and process should cover, at a minimum, the following statements:...

(vii) disclosure of what donor medical or other information and what potential donor identifiers will be retained; specific steps taken to protect donor privacy and the confidentiality of retained information; and whether the identity of the donor will be readily ascertainable to those who derive or work with the resulting stem cell lines, or any other entity or person, including specifically any oversight bodies and government agencies.

k. *Counseling Services*: Donors shall be advised of the availability of counseling services pursuant to ISSCR Guideline 11.6(iii),¹⁰ which preferably shall be made available to the donor free of charge.

l. *Donation of Oocytes Solely for the Purpose of Research*: The informed consent process must assure compliance with the provisions of ISSCR Guideline 11.5(b).¹¹ Special care must be taken to disclose both the short- and long-term health risks arising out of the oocyte donation process in a manner that reflects the most current scientific knowledge of such risks.

m. *Application*: The standards set forth in this subsection shall apply to research funded pursuant to this contract involving the derivation of new stem cell lines. Contractors may use biological materials obtained prior to the execution of this contract and/or cell lines derived without the use of funds provided under this contract so long as the informed consent obtained from the donor(s) adhered to the provisions of the NAS or ISSCR Guidelines. In addition, contractors may use cell lines registered on the National Institutes of Health (“NIH”) Registry,¹² and cell lines in existence on or prior to August 9, 2001 that were approved by the NIH for use in federally-funded research prior to initiation of the NIH Registry. Nothing in this paragraph shall preclude a SCRO from reviewing, if it so chooses, the procurement or derivation of such cell lines for compliance with additional ethical standards, such as those set forth in this contract, or by NAS and ISSCR.

¹⁰ ISSCR 11.6 (iii) - Counseling services should be made available upon request to any providers of human materials prior to procurement.

¹¹ ISSCR 11.5(b) - *For provision of oocytes for research, when oocytes are collected outside the course of clinical treatment.* In locales where oocyte donation for stem cell research is allowed, the SCRO mechanism or body is responsible for conducting rigorous review of any protocol to ensure the safety and the free and informed choice of oocyte providers, according to the following principles:

- (i) There must be monitoring of recruitment practices to ensure that no vulnerable populations, for example, economically disadvantaged women, are disproportionately encouraged to participate as oocyte providers for research.
- (ii) In locales where reimbursement for research, participation is allowed, there must be a detailed and rigorous review to ensure that reimbursement of direct expenses or financial considerations of any kind do not constitute an undue inducement.
- (iii) At no time should financial considerations of any kind be given for the number or quality of the oocytes themselves that are to be provided for research.
- (iv) Oocyte procurement must be performed only by medically qualified and experienced physicians, and nonaggressive hormone stimulation cycles and frequent monitoring must be used to reduce the risk of ovarian hyperstimulation syndrome (OHSS).
- (v) Due to the unknown long-term effects of ovulation induction, women should not undergo an excessive number of hormonally induced ovarian stimulation cycles in a lifetime, regardless of whether they are induced for research or assisted reproduction. The limits should be determined by thoughtful review during the SCRO process, which should be informed by the latest available scientific information about the health risks.
- (vi) There should be a provision to pay for the cost of any medical care required as a direct and proximate result of a woman’s provision of oocytes for research.
- (vii) An infertility clinic or other third party responsible for obtaining consent or collecting materials should not be paid specifically for the material obtained, but rather for specifically defined cost-based reimbursements and payments for professional services.

¹² See National Institutes of Health Guidelines on Human Stem Cell Research, §§ II.B - D (2009), available at <http://stemcells.nih.gov/policy/2009guidelines.htm>.

5. Payments to Gamete Donors:

- a. Contractors may conduct research involving the use of stem cell lines, or may derive new stem cell lines, for which women donating oocytes solely for research purposes have been, or are being, reimbursed for out-of-pocket expenses as well as compensated for the time, inconvenience and burden associated with the donation process. Out-of-pocket expenses may include, but are not limited to, travel, housing, medical care, child care incurred as a result of the donation process. Compensation for the time, inconvenience and burden associated with the donation process must be consistent with New York State's standards applicable to women who donate oocytes for reproductive purposes and may not exceed amounts permitted by the guidelines of the American Society of Reproductive Medicine.¹³ Payments made to oocyte donors in accordance with the provisions of this section are an allowable expense under this contract.
- b. If reimbursement for oocyte donation is provided, there must be a detailed and rigorous review by the SCRO Committee, and the IRB, if required, to ensure that reimbursement of direct expenses and/or other compensation do not constitute an undue inducement.
- c. At no time should financial consideration of any kind be given for the number or quality of the oocytes themselves that are provided for research.
- d. The SCRO Committee should review information, where available, regarding the payment to donors who produced gametes originally for reproductive purposes to ensure compliance with the ISSCR Guideline 11.5(a). Where no such information is reasonably available, the SCRO Committee need not ensure that payment history complies with either NAS or ISSCR Guidelines.

F. Publication and Intellectual Property Rights

1. It is ESSCB's intent that the results of research it supports through its sponsorship be disseminated and made easily available to the research community and the lay public. Manuscript submission for publication of research funded by the Fund shall not be delayed by investigators or their research institutions. Research results are to be submitted promptly for publication in internationally recognized scientific journals. Publication should not be delayed for commercial or other reasons beyond the editorial period needed to ensure scientific accuracy and presentation.

¹³ American Society of Reproductive Medicine (ASRM) Ethics Committee. Financial compensation of oocyte donors. *Fertil. & Steril.* 88(2), 305-309 (2006).

- a. All publications reporting research supported by NYSTEM funds published in peer reviewed journals must be deposited in the National Institutes of Health National Library of Medicine's PubMed Central (PMC). NYSTEM encourages investigators to sign copyright agreements that specifically allow the published manuscript to be deposited for public posting on PMC. As investigators are encouraged to publish NYSTEM-funded research findings as "open access" publications, contract funds may be used to cover costs required for such "open access" publication.
- b. An electronic copy of each such publication must be filed with the progress report pursuant to this contract.
- c. Support by the Empire State Stem Cell Fund shall be acknowledged in all publications, presentations and products of research in a form consistent with the publication's guidelines, (*e.g.*, "supported by the Empire State Stem Cell Fund through New York State Department of Health Contract # <<>>). Opinions expressed here are solely those of the author and do not necessarily reflect those of the Empire State Stem Cell Board, the New York State Department of Health, or the State of New York").

2. It is ESSCB's intent that the resources, materials and methods created through its sponsorship be disseminated and made easily available to the research community. All such materials described in invention disclosures, publications, or other public forums shall be made available to requesting investigators. The contractor may collect reasonable costs for provision of such resources and may require execution of appropriate material transfer agreements, licenses, or confidentiality agreements (*see* paragraph #4, below).
3. The State retains march-in rights¹⁴ with regard to NYSTEM-funded research. In the event that NYSTEM determines that the contractor has not made sufficient reasonable efforts to protect the various property interests in the research or has failed to share the research developments promptly, the State shall have the right, at its sole discretion, to exercise its march-in rights and take appropriate steps to achieve those goals. The State shall have the right to a perpetual royalty-free, non-exclusive and irrevocable right to reproduce, publish or otherwise use, and to authorize others to use, for research and governmental purposes only, any published or otherwise reproducible material, device, invention, technique, material, or methodology developed under or in the course of performing this

¹⁴ For purposes of this contract, "march-in right" shall mean the following: with respect to any subject invention in which the contractor has acquired in the course of performing this contract, the State shall have the right to require the contractor, an assignee or exclusive licensee of a subject invention to grant a nonexclusive, partially exclusive, or exclusive license in any field of use to a responsible applicant or applicants, upon terms that are reasonable under the circumstances, and if the contractor, assignee, or exclusive licensee refuses such request, to grant such a license itself, if the State determines that such action is necessary either because the contractor, assignee, or their licensee has not taken, or is not expected to take within a reasonable time, effective steps to achieve practical application of the subject invention in such field of use or to alleviate health or safety needs which are not reasonably satisfied by the contractor, assignee, or their licensee.

funded research, dealing with any aspect of the research activity, or of the results and accomplishments attained from the research.

4. The contractor must have written agreements with researchers that require prompt disclosure of inventions made in the performance of ESSCB-funded research. The contractor shall notify NYSTEM of the invention disclosures and the filing of any patent application in the progress report pursuant to this contract. The contractor shall also provide NYSTEM with written notice of any assignment or transfer of intellectual property rights generated as a result of research supported by the Fund. Any such assignment or transfer must acknowledge, and be subject to the rights retained by the State pursuant to paragraph 3, *supra*.

Assignment and ownership allocation of intellectual and industrial property rights generated from research supported by the Fund are to be determined by the parties concerned (researchers, and their research organizations or institutions), consistent with organizational policies. Prior to execution of a negotiated contract, appropriate arrangements (existing or proposed) regarding intellectual and industrial property rights must be made by the contractor. Such arrangements may include: provisions about dissemination of information, such as disclosure and methods of publication, and provisions regarding ownership and exploitation of the results of the research supported by the Fund. However, to protect the State's interests and to streamline invention reporting procedures, contracts between the Department and the contractor will, except to the extent inconsistent with this paragraph, incorporate the provisions of 37 CFR 401.14, with the following modifications throughout: *Federal* or *Government* will refer to New York State, and *agency* will refer to the Department.

5. Contractor agrees, pursuant to the provisions of the New York State Administrative Procedure Act §104, to provide the Department with the study, any data supporting the research study, and the identity of the principal person or persons who performed such study. If such study is used as the basis for the promulgation, amendment, or repeal of a rule, regulation, or guideline used in enforcement of a statute, rule, or regulation, the study, any data supporting that study, and the identity of the principal person or persons who performed the study shall be subject to disclosure in accordance with the law.

G. Other

1. Neither the Department nor the State of New York will assume any responsibility for any damage or injuries caused by or resulting from research conducted with the financial support of the Fund.

2. The contractor is required to participate in and cooperate with evaluation and dissemination activities sponsored or conducted by NYSTEM staff, such as:
 - a. on-site monitoring visits; and
 - b. ESSCB-sponsored annual scientific meetings (mentors and fellows will attend a NYSTEM-sponsored meeting to make presentations and to discuss their immersion experiences and the resulting impact on their students).
3. The contractor is required to submit separate requests for changes to key personnel and budget modifications. Requests for **budget modifications** that move funds between Personal Service and Non-Personal Service budget categories **and no cost extensions** that extend the termination date of the contract **will not be considered**. Further, unused funds cannot later be used to support additional training slots or portions thereof.
4. Prior approval is required for all out-of-state travel that is not detailed in Attachment B-1, Budget. Requests are not guaranteed approval.
5. Maximum funding allocated to payment of salaries is limited to \$199,700 in each budget year and is not adjustable as the federal salary cap changes.
6. No funds shall be directly or indirectly utilized for research involving human reproductive cloning. Equipment and patient care are not allowable expenses.
7. For each trainee, annual expenses may not exceed the following:

MAXIMUM ANNUAL BUDGET PER TRAINEE SLOT*		
	<u>Predoctoral Trainee</u>	<u>Postdoctoral Trainee</u>
Trainee Stipend	\$ 23,000.00	\$ 52,000.00
Training Related Expenses	\$ 4,200.00	\$ 7,850.00
Tuition and Fees	<u>\$ 16,000.00</u>	<u>\$ 4,500.00</u>
Total Direct Costs	\$ 43,200.00	\$ 64,350.00
Facilities and Administration (8% of Modified Total Direct Costs)	<u>\$ 2,176.00</u>	<u>\$ 4,788.00</u>
Total	<u>\$ 45,376.00</u>	<u>\$ 69,138.00</u>

* These expenses may be budgeted at either the applicant institution, the sub-applicant institution, or split between the two as appropriate.

Tuition costs may be requested up to a maximum of 60 percent of tuition costs and in amounts not to exceed \$16,000 per year for predoctoral trainees and \$4,500 per year for postdoctoral trainees.

Training Related Expenses may include:

- Travel to scientific meetings when necessary for the individual's training and when such costs are incurred within the period of training;
- Health Insurance for the trainee (individual or family) as applicable and consistent with institutional policy for trainees; and
- Speaker fees.

Funds may not be re-budgeted within the categories listed in the table above.

8. A sufficient number of mentors should be available to support the number and level of trainees accepted to the program. The research experience of the mentors should align with the overall goals and allow for sustainability of the training program. Mentors should be carefully selected and matched to trainees. Selected mentors should be conducting sufficiently supported stem cell research activities to properly engage and train participating fellows and to provide a rich research environment for the fellowship program participants throughout the term of the contract.
9. Contractors will ensure all the requirements below are met:

- a. General Trainee Requirements**

There are no citizenship restrictions on trainees. Trainees must commit a full time, 100% professional effort, equivalent to one FTE, directly associated with the stem cell training program. It is expected that trainees may rotate off the program to accept individual fellowships and other opportunities and be replaced by other trainees. It is possible that a trainee may be working on a stem cell project related to one or more of the mentor's awards as part of their training, but the trainee cannot receive remuneration from any other award while on the training program. Further, the trainee's time cannot be devoted to activities or projects other than those that are recognized as part of this stem cell training program.

- b. Predoctoral Trainees**

Predoctoral trainees accepted into the program will conduct relevant projects in stem cell-related research laboratories. Predoctoral trainees will have received a baccalaureate degree by the beginning date of the appointment, be training at the post-baccalaureate level, and enrolled in a program leading to a PhD in science or in an equivalent research doctoral degree program. Students pursuing a dual degree (e.g., MD/PhD, DDS/PhD) may be supported for the PhD research rotation portion of their studies, as long as that requires/allows a full-time 100% commitment to the research training program.

c. Postdoctoral Trainees

Postdoctoral trainees accepted into the program will conduct well-defined projects in stem cell-related research laboratories. Postdoctoral trainees will have received, as of the beginning date of the appointment, a doctoral or equivalent degree from an accredited domestic or foreign institution.

- 10.** Additional program policies, consistent with the requirements of the RFA and detailed in the work plan, are expected to be followed.

GUIDE TO NEW YORK STATE DOH M/WBE RFP/RFA REQUIRED FORMS

All DOH procurements have a section entitled “**MINORITY AND WOMEN OWNED BUSINESS ENTERPRISE REQUIREMENTS.**” This section of procurement sets forth the established DOH goal for that particular procurement and also describes the forms that must be completed with their proposal or application. Below is a summary of the forms used in the DOH MWBE Participation Program by a grantee.

Form #1: Grantee MWBE Utilization Plan - This document must be completed by all grantees responding to RFAs with an MWBE goal greater than zero. The grantee must demonstrate how it plans to meet the stated MWBE goal. In completing this form, the grantee should describe the steps taken to establish communication with MWBE firms and identify current or future relationships with certified MWBE firms. The second page of the form should list the MWBE certified firms that the vendor plans to engage with on the project and the amount that each certified firm is projected to be paid. Plans to work with uncertified firms or women and minority owned firms do not meet the criteria for participation. If the plan is not submitted or is deemed deficient, the grantee may be sent a notice of deficiency. It is mandatory that all awards with goals have a utilization plan on file.

Form #2: MWBE Utilization Waiver Request - This document must be filled out by the grantee if the utilization plan (Form #1) indicates less than the stated participation goal for the procurement. In this instance, Form #2 must accompany Form #1 with the proposal. When completing Form #2, it is important that the grantee thoroughly document the steps that were taken to meet the goal and provide evidence in the form of attachments to the document. The required attachments are listed on Form #2 and will document the good-faith efforts taken to meet the desired goal. A grantee can also attach additional evidence outside of those referenced attachments. Without evidence of good-faith efforts, in the form of attachments or other documentation, the Department of Health may not approve the waiver and the grantee may be deemed non-responsive.

New MWBE firms are being certified daily and new MWBE firms may now be available to provide products or services that were historically unavailable. If Form #2 is found by DOH to be deficient, the grantee will be sent a deficiency letter asking for a revised form to be returned within 7 business days of receipt.

Any questions regarding completion of these forms can be sent to jae11@health.state.ny.us.
